Synthetic Data Generation Business Research Report 2024: Global Market to Reach \$3.7 Billion by 2030 from \$323 Million in 2023, Driven by Rising Demand for Data Privacy and Anonymization Solutions - ResearchAndMarkets.com

January 13, 2025 11:37 AM Eastern Standard Time

DUBLIN--(BUSINESS WIRE)--The "[Synthetic Data Generation - Global Strategic Business Report](#)" has been added to **ResearchAndMarkets.com's** offering.

"[Synthetic Data Generation - Global Strategic Business Report](#)"

 [Post this](#)

The global market for Synthetic Data Generation was estimated at US\$323.9 Million in 2023 and is projected to reach US\$3.7 Billion by 2030, growing at a CAGR of 41.8% from 2023 to 2030. This comprehensive report provides an in-depth analysis of market trends, drivers, and forecasts, helping you make informed business decisions.

This technology plays a crucial role in training and validating AI models, particularly in scenarios where real-world data is scarce, sensitive, or difficult to obtain. By providing a controlled and scalable data source, synthetic data generation allows researchers and developers to train more robust and accurate AI models, leading to better performance in real-world applications. As AI and machine learning continue to advance, synthetic data generation is becoming increasingly important for enabling innovation and overcoming the limitations of traditional data collection methods.

let's build

FABULA* A connected
web of story moments,
from the viewpoint of
everyone involved.

INT. WHITE HOUSE MURAL ROOM – LATER

RUSSIAN AMBASSADOR VIKTOR PETROV stands with perfect diplomatic posture. C.J. and LEO observe from near the doorway, both noting Bartlet's tells – the subtle jaw clench, hands clasped behind his back.

AMBASSADOR PETROV

This is, as we see it, an internal Serbian law enforcement matter.

Any NATO intervention would constitute a serious violation of sovereign territory.

PRESIDENT BARTLET

Mr. Ambassador, would you care to explain how the kidnapping of American aid workers constitutes an internal matter?

C.J.'s BlackBerry buzzes. She closes her eyes briefly, steeling herself.

C.J.

Sir, CNN is running with Amanda Dalton's identity.

INT. STEAM PIPE TRUNK DISTRIBUTION VENUE –

```
"uuid": "scene_3",  
"title": "Diplomatic Tensions in the Mural Room",
```

```
"description": "In the Mural Room, tension fills the air as the Russian Ambassador, Viktor Petrov, articulates Moscow's stance, arguing that any NATO intervention would breach Serbian sovereignty. President Bartlet challenges this position, questioning the nature of the kidnapping of American aid workers. Meanwhile, C.J. and Leo, quietly observing from the doorway, note the subtle physical cues from Bartlet, such as his clenched jaw and tightly clasped hands. A buzzing BlackBerry alerts C.J. to CNN breaking the news of Amanda Dalton's identity, forewarning of an impending media storm.",  
"scene_number": 3,  
"location": "location_mural_room",  
"next_scene": "scene_4"
```

```
"uuid": "location_mural_room",  
"name": "Mural Room",  
"description": "A room in the West Wing used as an impromptu command center where high-stakes diplomatic dialogues take place. The space is noted for its strategic seating and positioning near doorways, allowing observers like C.J. and Leo to note every subtle cue in leaders' behavior.",  
"type": "Room"
```

PROCESSING

PIPELINE

//pre-processing

TURN DOCUMENT INTO MACHINE-READABLE CHUNKS

FADE IN:

INT. WHITE HOUSE SITUATION ROOM - PRE-DAWN

The room's characteristic dim lighting casts shadows across tired faces. Multiple LCD screens display satellite imagery of the Kosovo-Serbia border region. JOSH LYMAN enters, tie already loosened despite the early hour.

NATIONAL SECURITY ADVISOR NANCY MCNALLY stands at the head of the table, her commanding presence tinged with concern.

NANCY

Four USAID workers went dark three hours ago near the Kosovo-Serbia border. They were conducting post-conflict reconstruction assessments when we lost contact.

Josh takes his seat, unconsciously rubbing the old scar on his chest - a habit from Rosslyn when situations turn tense.

DONNA

Serbian paramilitary group is claiming responsibility on social media. They're demanding the release of three commanders from The Hague.

KATE HARPER

Our intelligence suggests elements within Serbian security services provided tactical support to the paramilitary group.

1 The Measure Of A Man
2 Stardate: 42523.7
3 Original Airdate: 13 Feb, 1989
4
5 Captain's log, stardate 42523.7. We are en route to newly established Starbase one seven three for port call. Crew
  rotation is scheduled, and we will be off-loading experiment modules.
6 [Data's quarters]
7
8 (Pulaski, La Forge, Data (wearing a dealer's shade) O'Brien and Riker are sitting down for an evening's entertainment)
9 O'BRIEN: Hold it, that's my chair. My luck is always lousy unless I start on the dealer's right.
10 DATA: That would seem to be superstition.
11 O'BRIEN: Bitter experience has taught me it's a fundamental truth.
12 RIKER: Okay, the game is five card stud, nothing wild. Ante up.
13 DATA: This game is exceedingly simple. With only fifty two cards, twenty one of which I will see, and four other players,
  there are a limited number of winning combinations.
14 LAFORGE: There's more to this than just the cards, Data.
15 DATA: Of course. The bets will indicate of the relative strength of each hand.
16 O'BRIEN: Time to pluck a pigeon.
17 (Kate starts the betting)
18 PULASKI: Five.
19 LAFORGE: I'm in.
20 DATA: I too.
21 RIKER: Call.
22 (The first lot of face up cards are dealt)
23 RIKER: A seven, and a six, and the ace.
24 DATA: I bet ten.
25 O'BRIEN: See that.
26 RIKER: Call.
27 PULASKI: Fold.
28 LAFORGE: Yeah, me too. I'm out.
29 (Another deal. Riker is showing the ten, Jack and five of hearts. Data has two Queens and an Ace)
30 DATA: I bet five.
```

    {{ Narrative_analyst_persona ()}}
```

****Objective**:** Extract metadata for the current scene.

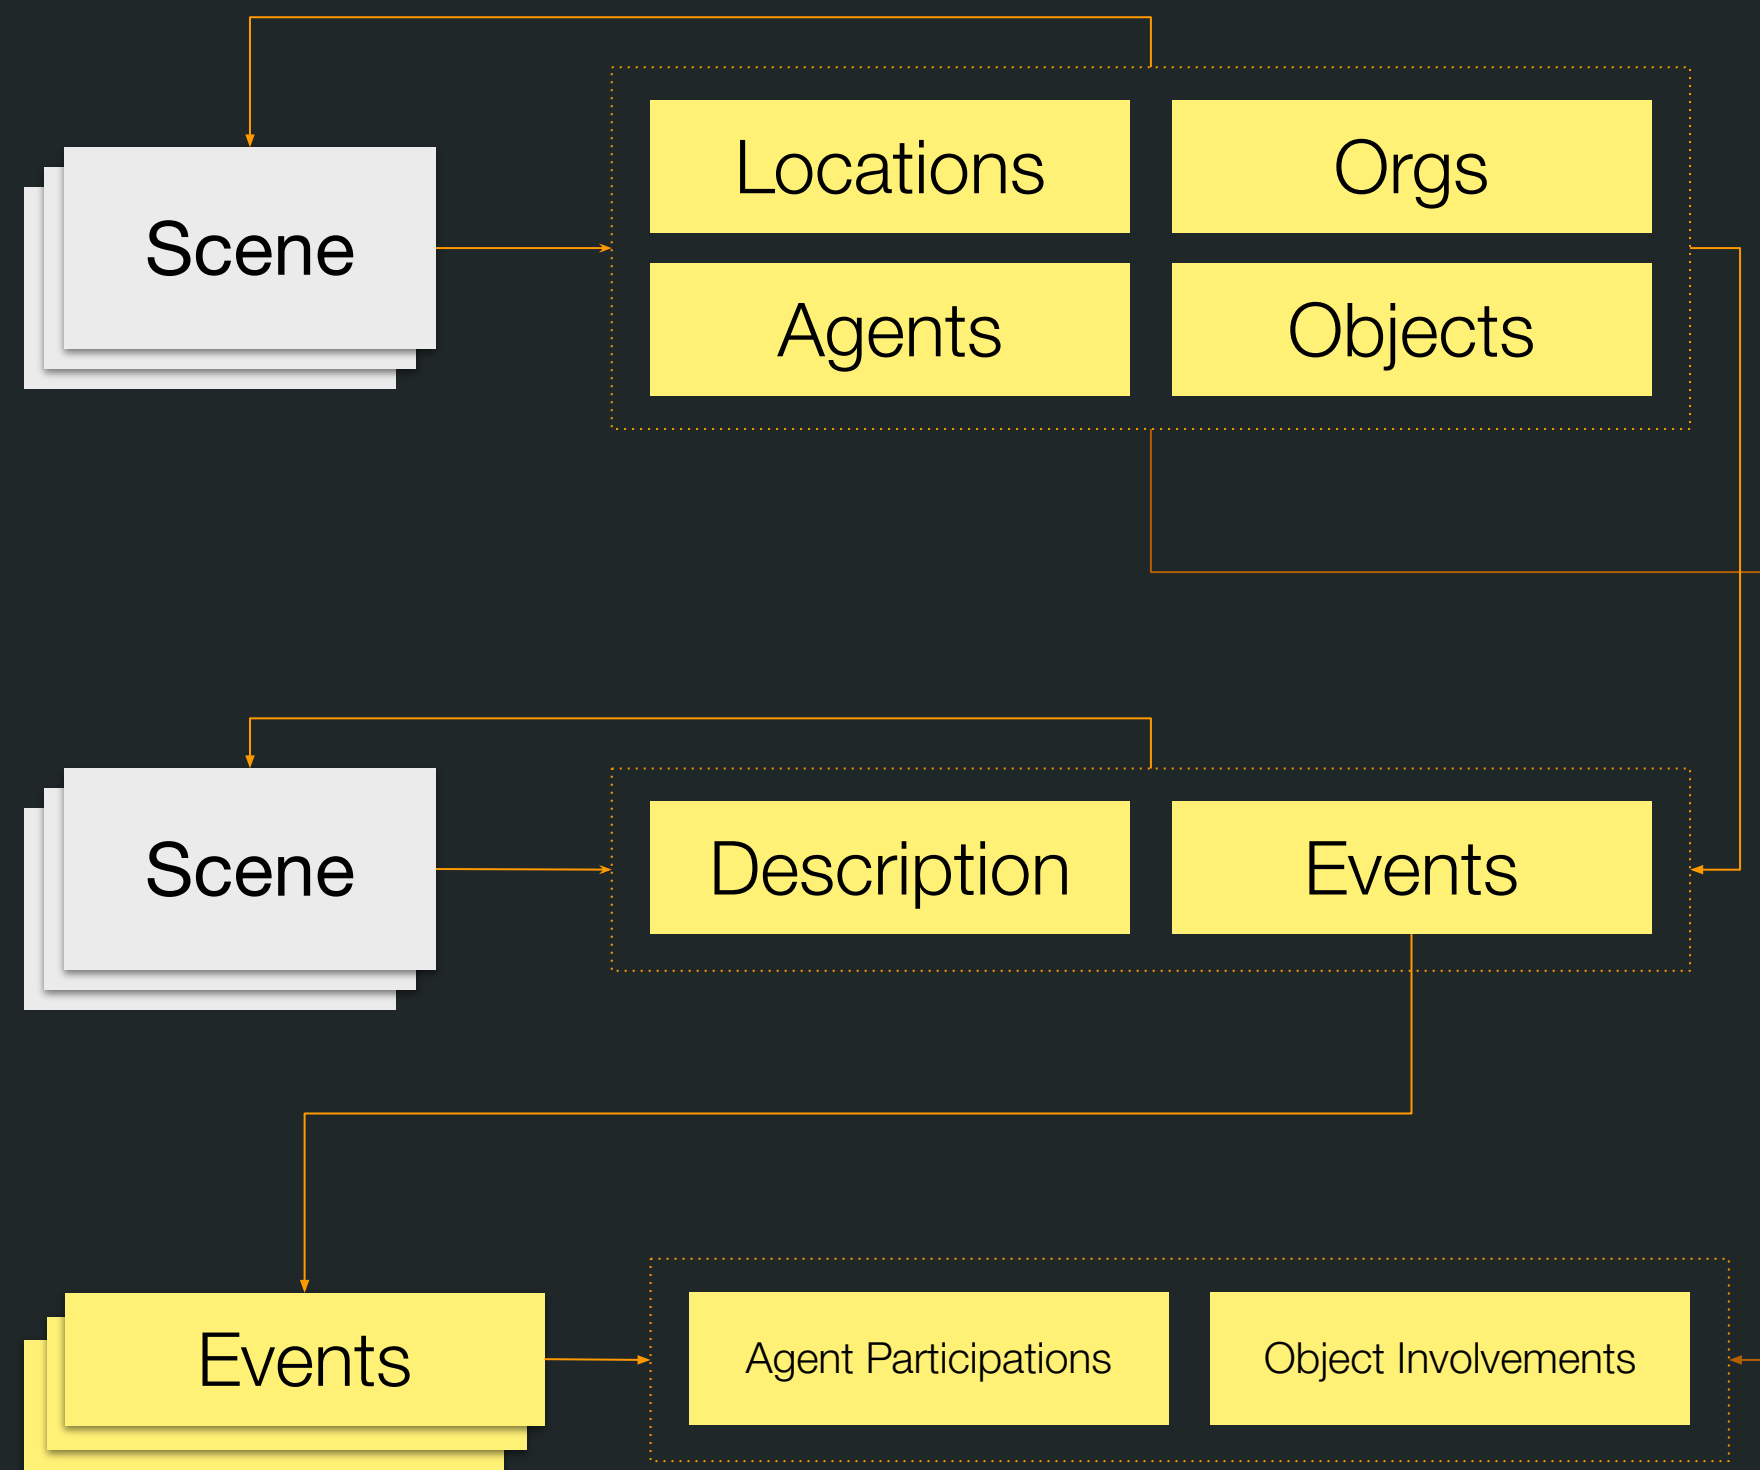

- **Instructions**:**
- **Title**:** Generate a concise, descriptive title.
 - **Description**:** Summarize the setting, characters, actions, and emotional tone.
 - **Scene Number**:** Extract if explicitly mentioned; otherwise, leave null.
 - **Location**:** Select the UUID of the primary location from the provided `locations` list. If not explicit, infer from `story_context`.
 - **Next Scene**:** Identify any references to the next scene and assign its `scene_uuid`. If none, leave null.
 - **UUID**:** This will be assigned in post processing.

//run through scenes to grab all our data

The image shows a code editor interface with several tabs at the top: `measure_man_script.txt U`, `measure_man_transcript.json U`, `episode_processing.log X`, and `main.py U`. The active file is `episode_processing.log`, which contains the number `8852`. The bottom panel is a terminal window with tabs for `PROBLEMS`, `OUTPUT`, `DEBUG CONSOLE`, and `TERMINAL`. The terminal shows a shell prompt `bash - myth_dev` and a command being executed: `(.venv) fabula-7915348:~/fabula/myth_dev{main}$ python3 main.py --fully-combined --batch-resolution`. On the right side of the terminal, there is a vertical scroll of log output from the `episode_processing.log` file, showing repetitive lines of code and log messages.

**CUT TO: INT. SCHOOL OFFICE, NEW HAMPSHIRE,
EARLY 1960S - DAY**

Young Jed Bartlet, with his back turned, flips his suit jacket on over his head. Mrs. Landingham is in her office, typing. Bartlet pulls a folder from a file cabinet in an adjacent office, then walks back into office.

YOUNG JED

It wasn't a non-denominational service

MRS. LANDINGHAM
Of course it was.

CUT TO: INT. NATIONAL CATHEDRAL - PRESENT DAY

Bartlet stands alone glaring at the altar. Most of the guests have left the church. He ascends the stairs to the Inner Sanctuary.

BARTLET

[pleading] That's not enough to buy me out of the doghouse? Haec credam a deo pio? A deo iusto? A deo scito?

Instructions:

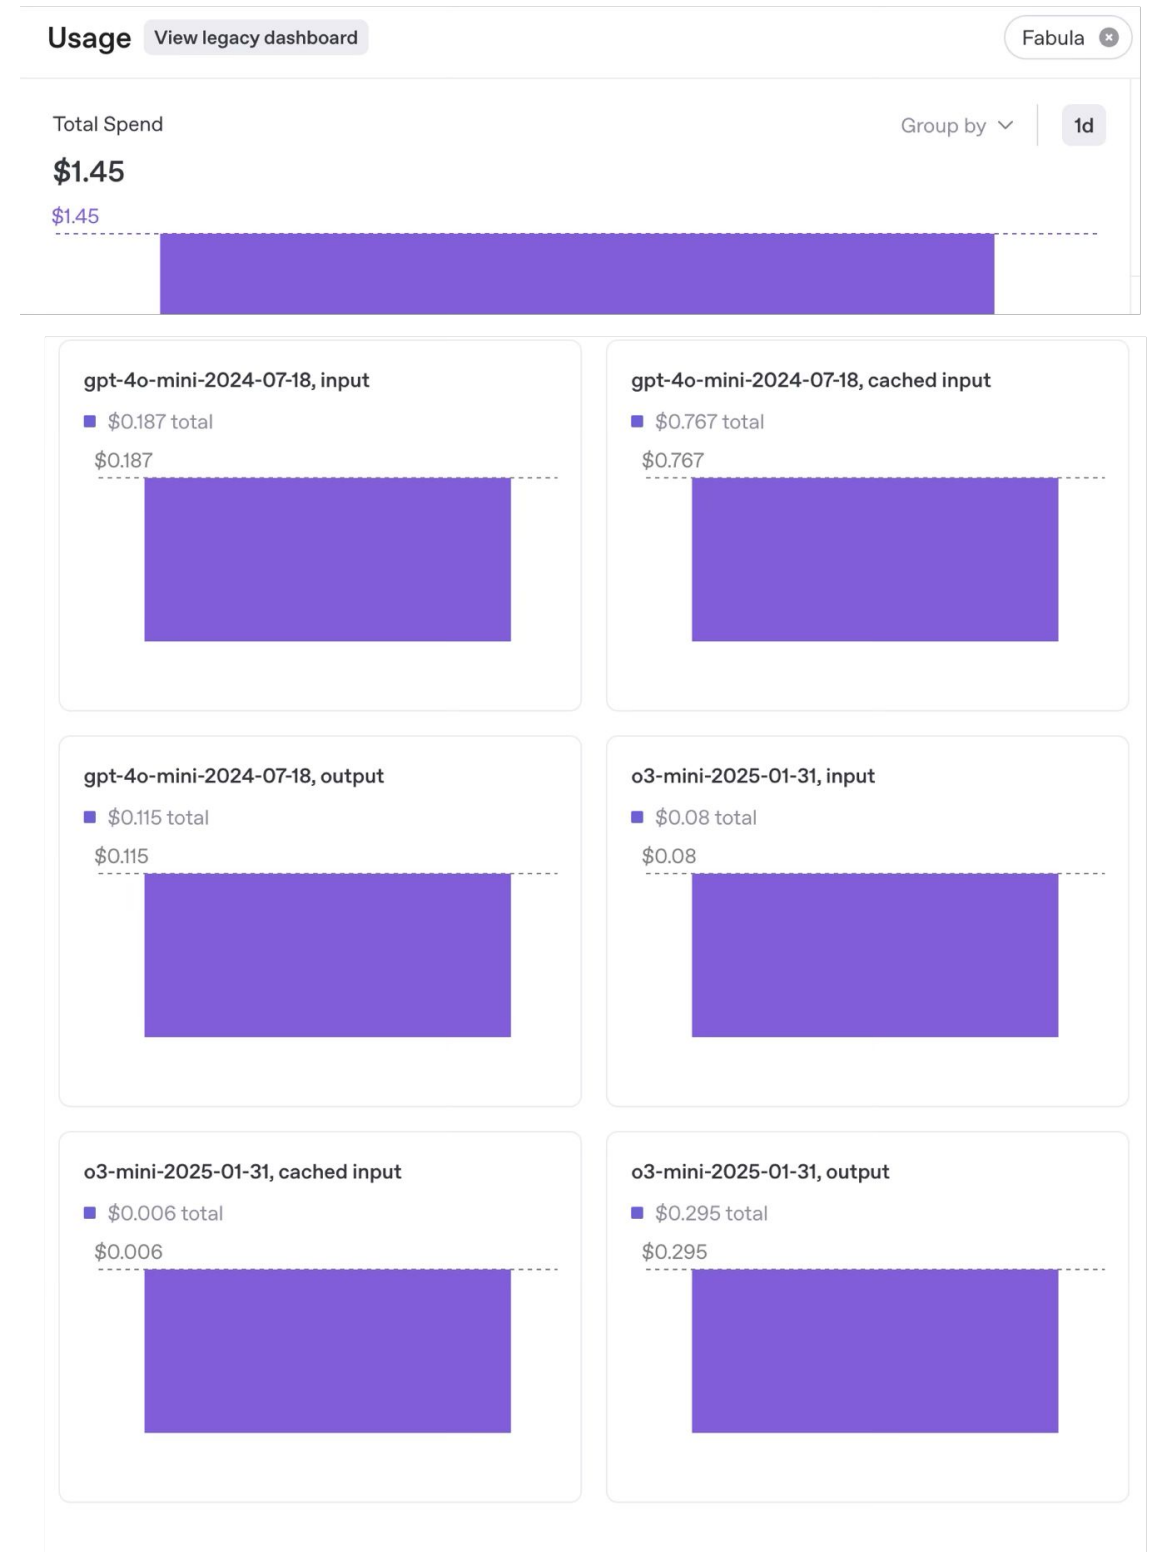

1. ****Consider Disambiguation First****: Prioritize *correctly distinguishing* unique objects before attempting to merge. Base your reasoning on all available data in the source entities, particularly name, description, purpose, and significance.

2. ****Unique Object Identification****: Carefully assess each object entity, taking into account their name, description, purpose, significance, and original owner. Only merge entities if there is *overwhelming evidence* they refer to the *exact same* item. Avoid merging entities if there's even a slight chance they could be distinct objects. Pay particular attention to:

* Ensure the uuid is correct and appropriate

//response quality by model

agentparticipation_agent_the_doctor_event_4_1

current_status

The Doctor stands at the temporal core, focused and agile, interfacing with the Archive's systems. They work swiftly at the controls as the TARDIS beams stabilizing energy. Their posture is upright, their gestures deliberate and precise, indicating both command and urgency.

emotional_state

The Doctor embodies a calm yet intense determination, showing a measured confidence through subtle nods and tight-lipped concentration. Beneath the surface, an inner anxiety about the chaotic interplay of time lurks and fuels their resolve; they are aware of the impending consequences and feel a heavy burden of responsibility, even as they maintain an outward assurance that borders on philosophical nonchalance.

active_plans

Stabilize the failing temporal matrices using the TARDIS interface. Counteract the destructive temporal virus by analyzing the Archive systems. Guide the team through adaptive remedial actions to contain chaos.

beliefs

Time is a living entity, not a mere equation to be solved. Historical knowledge must be preserved with responsibility. Every moment has the potential for irreversible change when tampered with.

goals

Short-term: Immediately interface with the systems to halt the crisis. Medium-term: Neutralize the virus and restore equilibrium to the Archive. Ultimate: Ensure that time remains a precious, uncontrollable force unbound by human or alien interference.

agentparticipation_agent_doctor_event_4_1

current_status

The Doctor stands firmly at the control panel, tapping commands into the consoles. Their posture is determined, leaning slightly forward as they engage with the technology, the sonic screwdriver a constant companion in their hand, radiating authority and focus as they orchestrate the stabilizing efforts.

emotional_state

Outwardly, The Doctor projects an air of calm urgency, their brow slightly furrowed but eyes sharp with intensity as they assess the crumbling situation. Internally, they grapple with the weight of responsibility and an underlying fear of failure, knowing that the stakes involve not just lives but the very fabric of time itself. The conflict between their protective instinct for the Archive and the chaotic threat of entropic collapse drives their urgency.

active_plans

Stabilize the failing temporal matrices using the TARDIS. Coordinate with K'nell and Sarah to implement defensive strategies against the Entropy Syndicate. Ensure the safety of the Archive's knowledge and prevent the Entropy Syndicate from exploiting it.

beliefs

Time is a living entity that must be respected and protected. Knowledge should be safeguarded to prevent catastrophic misuse. Every action has consequences that can ripple through time.

goals

Short-term: Stabilize the Archive's systems to prevent collapse. Medium-term: Prevent the Entropy Syndicate from gaining access to destructive temporal knowledge. Ultimate: Preserve the integrity of time and history, ensuring that dangerous knowledge remains hidden.

agentparticipation_agent_the_doctor_event_4_1

current_status

The Doctor is visibly active and engaged with the Temporal Core's systems. He injects and manipulates quantum interfaces, his hands moving with precision and urgency. He is not like the K'nell or the Syndicate operatives but his presence is dominant through his technical expertise. His posture is one of focused intensity, bent over the controls, with sharp, purposeful movements.

emotional_state

On the surface, the Doctor displays a serious and urgent demeanor characteristic of his role. There's a palpable sense of determination and a touch of weariness. Beneath the surface, however, lies a deeper sense of professional pride and a fierce loyalty to his mission. At its core, there is a sense of purpose and responsibility, a core tenet of his existence. He may also harbor a degree of frustration at the current state of affairs, but his focus on the timestream, though this is masked by his focused, solution-oriented approach.

active_plans

Immediate plan: Stabilize the temporal matrices and contain the entropic cascade. Medium-term plan: Purge the temporal virus from the Archive's systems. Long-term plan: Ensure the integrity of the timestream and prevent future incursions.

beliefs

Time is fundamental to the universe and must be protected. The knowledge within the Quantum Archive is invaluable and should be safeguarded. The Entropy Syndicate's actions are physically dangerous and morally reprehensible.

goals

{goal_type: Short-term, goal_description: Influence the immediate stabilization of the timestream, goal_accuracy: High accuracy in stabilizing the timestream containing the virus.} {goal_type: Medium-term, goal_description: Completely eradicate the temporal virus from the Archive, by the end of Scene 4., goal_accuracy: Virus eradication must be the primary objective.} {goal_type: Long-term, goal_description: Deter the Entropy Syndicate and similar future threats, goal_accuracy: High accuracy in preventing future attacks.} Beyond Scene 4, for the future security of the Quantum Archive and possibly Time itself, offensive and defensive measures are necessary to safeguard against recurring attacks and potential future threats.

//response quality by supplied context (first scene)

agentparticipation_agent_jeff_garvey_event_1_1

current_status

Garvey wakes up disoriented, experiences agony, then transitions to calmness and determination, arming himself.

emotional_state

Initially confused and in agony, transitioning to calm and determined, with hints of internal conflict.

active_plans

Regain control and understand surroundings
Act on remembered mission involving killing
Fulfill the purpose of his transformed state

beliefs

Has a mission to carry out involving killing
Needs self-defense, indicating perceived vulnerability
May believe he is under external control or influence

goals

Escape the jungle and understand his state
Identify and eliminate targets
Fulfill the purpose of his transformation

agentparticipation_agent_jeff_garvey_event_1_1

current_status

Garvey is lying on the ground, wakes up confused, and after a moment of agony, becomes calmer and pulls out a gun, intending to kill.

emotional_state

Shifts from confusion and pain to calm determination with an underlying conflict between his original self and the Varga-controlled persona.

active_plans

To remember and understand his situation.
To act on his urge to kill driven by the Varga's poison.
To possibly protect himself or assert dominance.

beliefs

He must kill as per the Varga's influence
He might be under threat or in danger.
The gun is his means of protection or survival tool

goals

Eliminate threats and understand his situation
Survive on Kembel
Unclear due to the Varga's influence, but possibly to escape the planet or complete mission objectives.

agentparticipation_agent_jeff_garvey_event_1_1

current_status

Garvey is waking up with a start, sitting up and peering about him in confusion, then experiencing intense pain and finally becoming calm with a singular focus to kill.

emotional_state

Garvey is confused, then agonized, and finally calm but driven by a desire to kill.

active_plans

Survive on the hostile planet
Kill
Regain memories

beliefs

He must kill
He is alone on the planet

goals

Understand his situation and survive
Find a way off the planet
Fulfill his obsessive desire to kill

FULL EPISODE

"Mission to the Unknown"
Recreation by University of
Central Lancashire, 2019

//response quality by supplied context (last scene)

agentparticipation_agent_dalek_supreme_event_14_1

current_status

The Dalek Supreme oversees the ritual, commanding respect and obedience.

emotional_state

Confident and authoritative, driven by strategic thinking and dedication to the Dalek cause.

active_plans

Lead the Daleks to victory
Ensure the pledge is binding
Strategically direct the campaign against Earth and the galaxy

beliefs

The Daleks are destined to rule the galaxy
All life forms must be exterminated or subjugated
The Dalek Supreme's leadership is indispensable

goals

Confirm the allegiance of all Daleks
Launch a successful assault on Earth
Achieve total domination of the galaxy

agentparticipation_agent_dalek_supreme_event_14_1

current_status

The Dalek Supreme stands amidst the conference, overseeing the pledge of allegiance by Malpha and the other representatives. It is the central figure, embodying the power and will of the Daleks in this historic moment.

emotional_state

The Dalek Supreme is calculating and devoid of emotions in the human sense, yet it exudes an aura of superiority and anticipation. It sees the alliance as a strategic step towards the fulfillment of the Daleks' ultimate goal: universal domination.

active_plans

To utilize the alliance for the strategic advancement of Dalek interests
To oversee the planning and execution of the invasion of Earth and other galaxies
To maintain control and ensure the loyalty of the allied systems

beliefs

The Daleks are the superior force in the universe
Alliance with other systems is a temporary necessity for achieving universal domination
The eradication of opposition is essential for the survival and dominance of the Daleks

goals

Secure the loyalty and commitment of the allied systems
Invade and conquer key galaxies, including Earth's
Establish the Daleks as the rulers of the universe

agentparticipation_agent_malpa_event_14_1

current_status

Malpha is pledging allegiance to the Dalek cause and announcing the plan to conquer Earth and the rest of the Solar System.

emotional_state

Malpha appears to be confident and determined, eager to pledge allegiance to the Dalek cause and initiate the plan for conquest.

active_plans

Pledge allegiance to the Dalek cause
Conquer Earth and the rest of the Solar System
Reduce galaxies to ashes and their people to dust

beliefs

The Dalek cause is the key to achieving ultimate power and control
Conquering Earth and the rest of the Solar System is essential to their plan
Reducing galaxies to ashes and their people to dust is a necessary step in achieving their goals

goals

Pledge allegiance to the Dalek cause and initiate the plan for conquest
Conquer Earth and the rest of the Solar System",
Achieve ultimate power and control through the reduction of galaxies to ashes and their people to dust
