# TIPS TO DEVELOP AN EXPENSIVE OUTFIT

- **Invest in Quality**

The first and foremost tip to obtain that edge look is to look for a fabric material that is good quality. It is always advisable to own a few quality pieces over a bulk of seedy clothes that tend to fade and radiate a shabby appearance after a few washes. The good quality fabric is more durable and remains in shape for longer. Also, they might seem expensive initially, but potentially save money in the long run. Also, this results in less textile waste ending up in landfills, contributing towards sustainability over fast fashion.

- **Wear Tailored Pieces**

Even an expensive outfit can end up looking gaudy if it does not fit you well. So make sure that you get the clothes tailored to your size to achieve that classy look. As asserted by the fashion gurus, 'A good fit is worth more than a brand name.' So, always make sure your clothes are perfectly tailored to your shape.

- **Pay Attention to Silhouettes**

Next on the list comes pairing pieces to achieve a sharp and bold silhouette. For instance, a puff-sleeved blouse pairs well with sleek pants, creating an interesting and dynamic silhouette.
