New Relic

michellejlevine New toy I won at tonight's New Relic Future Talks event about full stack robotics! So cool!

Another distraction from finishing python....

allyynicoleee What does it do? What is it? You are so fancy!

michellejlevine @allyynicoleee I can put the different parts together and program them to do different things. He showed us a basic program to make the different lights blink, but there is a bunch more for me to explore!

michellejlevine It is my first adventure in building a robot to take over the world!
