

10 Ways To

# KEEP YOUR CLASSROOM CLEAN

[multicleaning.com.au](http://multicleaning.com.au)

# About Classroom Cleaning

It is important to create healthy and safe classroom environments for students and teachers. Cleaning a classroom is not an easy task. Here are some ways of cleaning classrooms recommended by a [school cleaning company](#) for the health and well-being of children.

# Classroom Cleaning Ways

1. Establish Clear Expectations
2. Designate Cleaning Duties
3. Regular Cleaning Schedule
4. Mop Up Any Spills Right Away
5. Incorporate Clean-Up Time
6. Disinfect High-Touch Points
7. Develop a "Clean Toy" System
8. Clean Desks & Tables Daily
9. Empty & Disinfect Trashcans Daily
10. Classroom Carpet Cleaning

# Establish Clear Expectations

Begin by setting clear rules and expectations for cleanliness in the classroom. Ensure students understand their responsibilities regarding keeping their desks, materials, and surroundings tidy.

# Designate Cleaning Duties

Assign specific cleaning tasks to students on a rotating basis. This fosters a sense of ownership and accountability among students for the cleanliness of their shared space.

# Regular Cleaning Schedule

Implement a regular **school cleaning schedule** for both students and staff. This could include daily tasks such as wiping down desks, organizing materials, and tidying up common areas.

# Mop Up Any Spills Right Away

If you spill your drink, clean it up right away. Use paper towels or ask a teacher if there is a mop you can use to clean up your mess immediately. It will protect from the spread of flues.

# Incorporate Clean-Up Time

Dedicate a few minutes at the end of each class or day for students to tidy up their workspaces and common areas. This habit helps instill a sense of responsibility for maintaining cleanliness.

# Disinfect High-Touch Points

A thorough disinfection of **school cleaning**, like computer mice keyboards and touchscreen devices, each day they are used by students is recommended. In classrooms where computers are used daily clean each time.

# Develop A "Clean Toy" System

Since toys have the potential to be shared by several children each day, it's important to keep them disinfected. Professional follows a **cleaning procedure for toys** in every classroom.

# Clean Desks & Tables Daily

Disinfecting tables and desks each day is an important step in preventing contaminated surfaces. For group tables, assigned seats can also be used to encourage social distancing and help prevent the spread of germs.

# Empty & Disinfect Trashcans Daily

What we discard in the trash each day can be unpredictable! Emptying and disinfecting classroom trash cans is effective, and can stop the spread of bad smells and spread of flu in the classroom.

# Classroom Carpet Cleaning

Carpets in the classroom must be properly disinfected with the disinfection procedure. We cant take it simple. Only with the help of **professional carpet cleaner** is can be done with deep procedures.
