Is Using KoP (Kafka-On-Pulsar) a Good Idea?

PULSAR SUMMIT

Ricardo Ferreira
Senior Developer Advocate
Amazon Web Services

Ricardo is Senior Developer Advocate at **AWS**, working in the DevRel team for North America. With more than 20 years of experience, he may have learned a thing or two about distributed systems, messaging, fast data analytics, databases, and observability. Before AWS, he worked for software vendors like **Elastic**, **Confluent**, and **Oracle**.
