

Community

What is it good for?

Jeremy Meiss

Head of Community @ Auth0

About Me

- 10+ years in Community/DevRel
- Community/DevRel Consultant
- Unable to do tricks

Community == Watermelon?

©2009 Steven L. Wood

What is Community?

A group of people with unique:

- Values
- Personalities
- Expertise
- Interests
- Humor

Cat Herding as a skill

Community Need Growing

- Collaboration is a necessity
- Traditional marketing less effective
- Big orgs/companies embracing communities

Brand Advocates / SuperUsers

- 5x more valuable
- Spend 2x+ more
- Spend 3x average over lifetime
- Larger social reach
- More trusted than influencers

Lifecycle of Communities

- Inception
- Establishment
- Maturity
- Mitosis
- Death

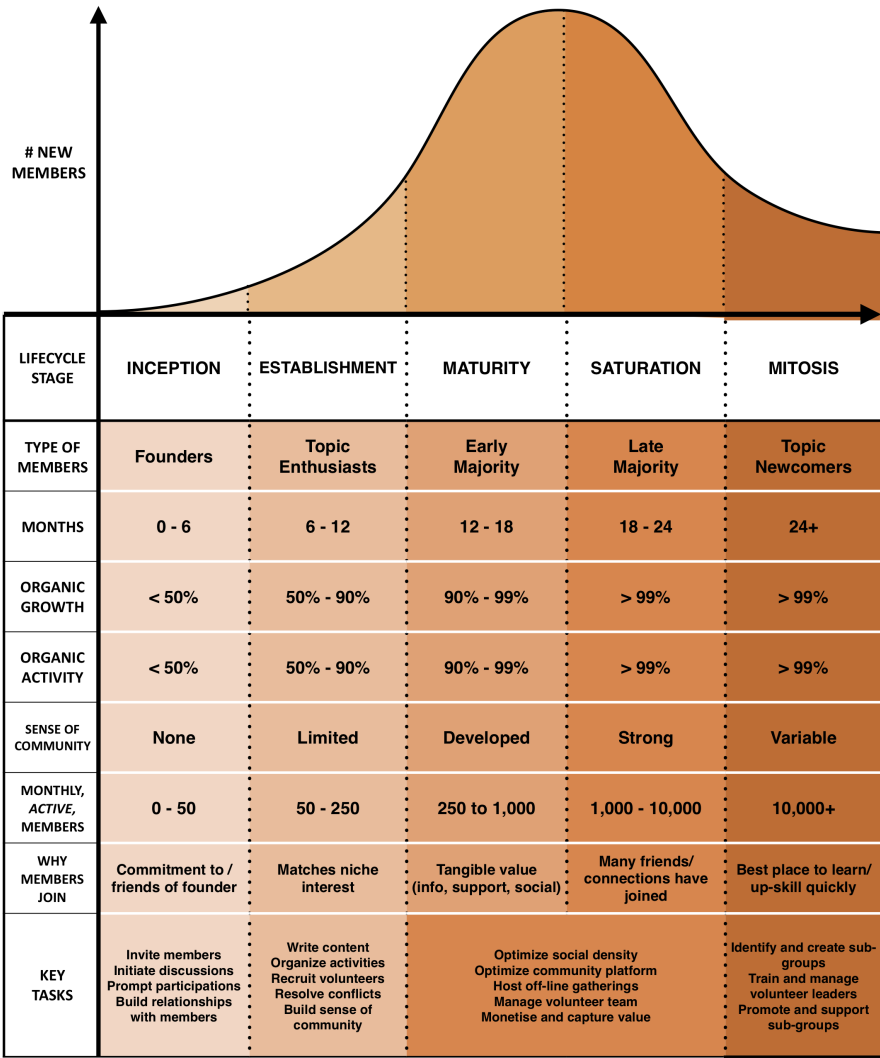

Lifecycle of Communities

- Inception
- Establishment
- Maturity
- Mitosis
- Death

THE ONLINE COMMUNITY LIFECYCLE

LIKE IT? HELP OTHERS AND SHARE IT

How do you get people involved?

"If you can *enable* an environment in which people can share, they will and the benefits will entice others to join." -**Susannah Fox**, *Pew Internet / American Life Project*

How to get started?

- Identify target devs / where they hang out
- Identify their interests and motivations
- Remove barriers to adoption

Community Onboarding 101

- Make them feel welcomed and comfortable
- Give specific, simple steps to get started
- Don't overwhelm with too much info/tasks
- Over time interact in multiple ways
- Convey the culture and voice

Understand motivations for involvement

- Help to receive help
- Increased recognition
- Make an impact
- Connection with others in community
- Belonging

Increasing participation

- Recognition and status boost
- Access to more info, tools, resources, etc.
- More capabilities and control
- Swag. Cool stuff.

Steps We're Taking

- Building leaderboard
- Incentivizing participation
- Internal incentives
- Our first developer community survey
- Creating superuser program
