- Bridging social ties
- Synergy

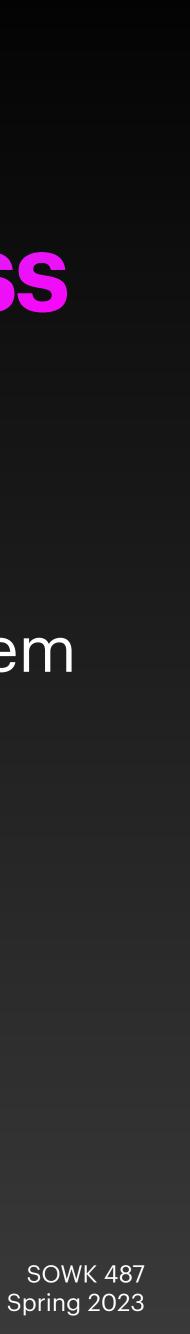

- solving, quality of life, health)
- Institutionalization of programs and/or partnerships •

Achievement of program and policy objectives (e.g., collaborative problem)

(Schulz et al., 2017)

Ethical Dilemmas in Macro Social Work Practice

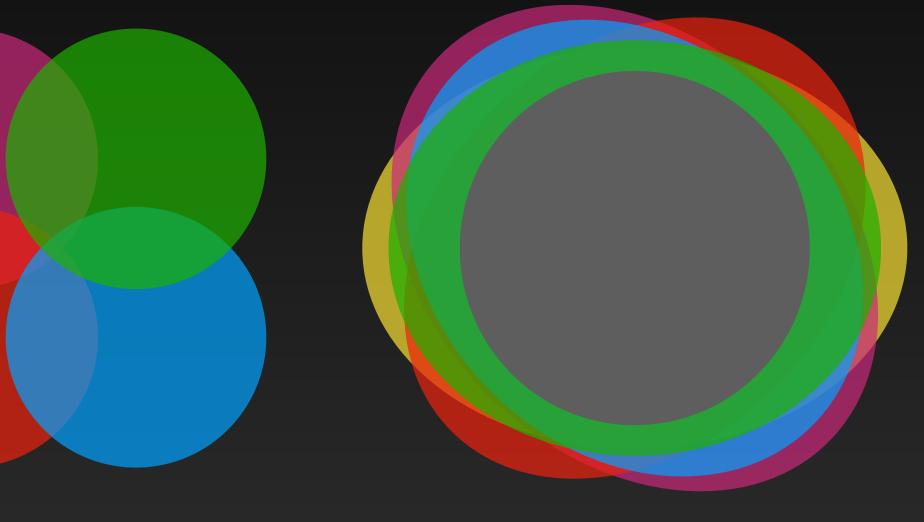

Disciplinary Perspectives A Type of Progression multidisciplinary

Multidisciplinarity draws on knowledge from different disciplines but stays within their boundaries

Interdisciplinarity analyzes, synthesizes and harmonizes links between disciplines into a coordinated and coherent whole

interdisciplinary **trans**disciplinary

Transdisciplinarity integrates the natural, social and health sciences in a humanities context, and transcends their traditional boundaries

(Choi & Pak, 2006)

Local Examples of multidisciplinary or interdisciplinary groups
