Preliminary measures to take when involved in a major accident

1. If your vehicle gets involved in a fender bender or a significant accident, the first thing to do is to check for injuries. If they are severe injuries without any delay, call an ambulance.
2. If the injuries are minor, do not leave the accident site, as it may include criminal prosecutions.
3. As a safety measure, move the vehicle to the side of the road and place safety markers if available.
4. If you are eligible for AMA coverage, call TNT Towing [AMA towing services](#) to move your undriveable vehicle safely. With AMA coverage, you can cover your towing costs.
5. Gather all the information of the parties involved in the accident and, without delay, submit it to your insurer for fast claims.

Reliable Towing services offered by TNT Towing

Having reliable, latest equipment gives confidence and assurance to individuals seeking towing help. TNT Towing has a large fleet of towing trucks that help with light to heavy towing recoveries. The skilled team can move the towing vehicle anywhere, anytime, and from anything. This company has 35 radio-dispatched units, which is the reason for the fastest response and arrival at the site.

Apart from TNT Towing, the AMA partnered with a contractor, offering insurance for towing services for all AMA partners.

Salvage auction services are offered on unrecoverable vehicles

Vehicles become salvage when they get damaged to an extent where repair costs exceed the pre-loss market value. Once the insurance company declares the majorly damaged vehicle for total loss, the vehicle is now classified as a salvage vehicle. TNT Towing conducts bidding on the TNT Salvage vehicles on behalf of the Alberta government. The minimum bid amount for the vehicle is 500\$ with GST charges.

TNT Towing [auto wreckers Lethbridge Alberta](#) also provides a private bidding auction. For further details on the TNT Salvage auction, contact TNT Towing customer support.
