What Is the Rice Purity Test?

The Rice Purity Test originally comes from **Rice University**, created in 1924 as a playful way for students to share and reflect on their experiences. The test is a self-assessment designed to measure your level of “purity” based on a wide variety of life experiences everything from relationships, partying, and social interactions to personal habits and choices.

Your results are scored on a scale from 0 to 100, with higher scores suggesting a more “pure” life, and lower scores indicating a life filled with adventurous or unconventional experiences.
