S'abonner ⋮

One of our big focus areas for 2018 is making sure the time we all spend on Facebook is time well spent.

[...]

As we roll this out, **you'll see less public content like posts from businesses, brands, and media.** And the public content you see more will be held to the same standard -- it should encourage meaningful interactions between people.

For example, there are many tight-knit communities around TV shows and sports teams. We've seen people interact way more around live

ne pas jurer que par Facebook  
[et autres] c'est éviter de se  
faire prendre à leur (très  
malin) jeu de dupes. **Avoir son  
propre site web, c'est assurer  
la pérennité de sa marque,**  
quelle qu'elle soit

## Manifeste du Web indépendant

EN FRANÇAIS

par le minirézo

Le Web indépendant, ce sont ces millions de sites offrant des millions de pages faites de passion, d'opinion, d'information, mises en place par des utilisateurs conscients de leur rôle de citoyens. Le Web indépendant, c'est un lien nouveau entre les individus, une bourse du savoir gratuite, offerte, ouverte ; sans prétention.

Face aux sites commerciaux aux messages publicitaires

## Welcome to AboutFace -- your source for Web & intranet database software

### Publish a "people directory" in minutes

If you need to publish directory information to your Website or intranet, AboutFace is for you! AboutFace eliminates the need for time-consuming custom development and delivers a feature-rich database publishing tool right out of the box.

### Explore AboutFace

- > [Try a demo](#)
- > [Request](#) product literature
- > Visit our [online store](#)
- > [See how much](#) AboutFace can save you

### An Easy ROI

AboutFace is the best way to publish a database to your intranet or Website because it's simple, cost-effective and easy to implement. And, it provides the most robust set of features. For example, here are some of AboutFace's unique capabilities:

- > Completely Web-based administration
- > Automatically links images to data records
- > Integrated floor plan manager
- > AOL Instant Messenger integration
- > Multiple permission levels
- > User self-service

### See how can AboutFace help your organization

#### Corporations

Publish an employee directory, facebook and knowledge index.

#### Schools & Colleges

Eliminate the need for printed facebooks. Save time and money each year.

#### Membership Associations

Put your membership directory online and offer member self-service updating.

#### Hospitals

Publish medical staff directories for internal and public use.

### Latest News

**12/30/03:** AboutFace announces AOL Instant Messenger integration -- now with presence information!

**1/1/04:** AboutFace announces new version, new customers as year begins.

<https://bradfrost.com/blog/post/write-on-your-own-website/>

# WE'RE UNIQUE

FIND OUT HOW UNIQUE

This is the bit where you talk about how unique you are as a business and that you're different to all of your competitors.

Your website looks the same though.

## Always

You could have four columns here but you won't. You'll have three, like everyone else.

## Three

Have a cog icon above one of these columns if you're really feeling especially creative.

## Columns

The perfect place to talk about your services. Because co-incidentally, you have three of them.

# Domains » Use a Domain You Already Own (Domain Mapping)

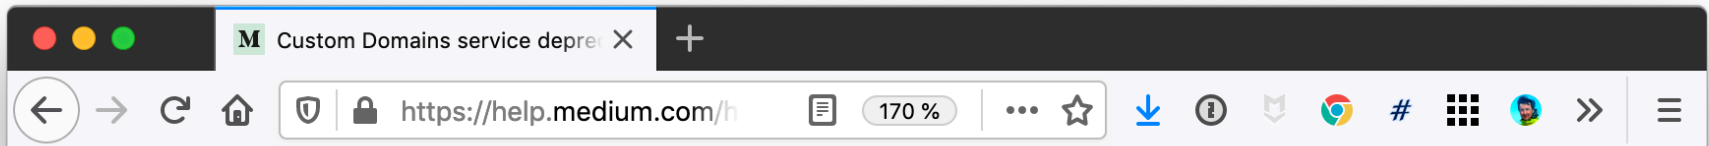

Have you already purchased a domain name with another provider, such as GoDaddy or 1&1? If you prefer to keep your domain registered with your current provider, you can use it with your WordPress.com site by **domain mapping**.

There are two important steps to mapping your domain to your WordPress.com site.

- Attaching [your domain to your WordPress.com site](#)
- Updating your [domain name's name servers](#) to point to WordPress.com

# Medium is only an edge server of your POSSE CDN, your own blog is the origin

November 9th, 2017 Medium, blog, POSSE, IndieWeb 65 webmentions

People tend to be lazy (I am often) and chose the easiest tool to do the job, even if it's not the best one. Medium is the new Blogger <sup>1</sup>, but with a much nicer content editing UI, and a cleaner presentation of content to readers <sup>2</sup>. People can create and account and start publish in a few minutes, it's really easy. But how can all this be free?

# PESOS

**PESOS** is an acronym/abbreviation for **Publish Elsewhere, Syndicate (to your) Own Site**. It's a **Syndication Model** where publishing flow starts with posting to 3rd party services, then using some infrastructure (e.g. feeds, pingbacks, **webhooks**) to create an archive copy under your domain.

The opposite (and preferable) approach is **POSSE**, whereby a user publishes original content to their own site, and then syndicates copies to 3rd party services, preferably with perma(short)links back to the originals on their own site.

# IndieMark

**IndieMark** is a set of metrics for measuring the indieweb-ness of a site, and a step-by-step approach to incrementally adopting indieweb features on your site.

IndieMark helps us as a community measure our progress both individually and collectively.

Levels in general are ordered roughly by both immediate practicality to the indieweb site owner (somewhat by community interop), and
