Helping people raise their voice and those who serve them to listen and respond better

We were able to map all the health facilities in Kathmandu Valley before the earthquake, which will undoubtedly help the relief workers' ability to deliver supplies and help save lives.

Why Rwanda and Kenya?

“ Rwanda’s history with Genocide led to a number of social policies and projects that worked on peace. Kenya's history of tribal/political conflict allow exploration into crisis. ”

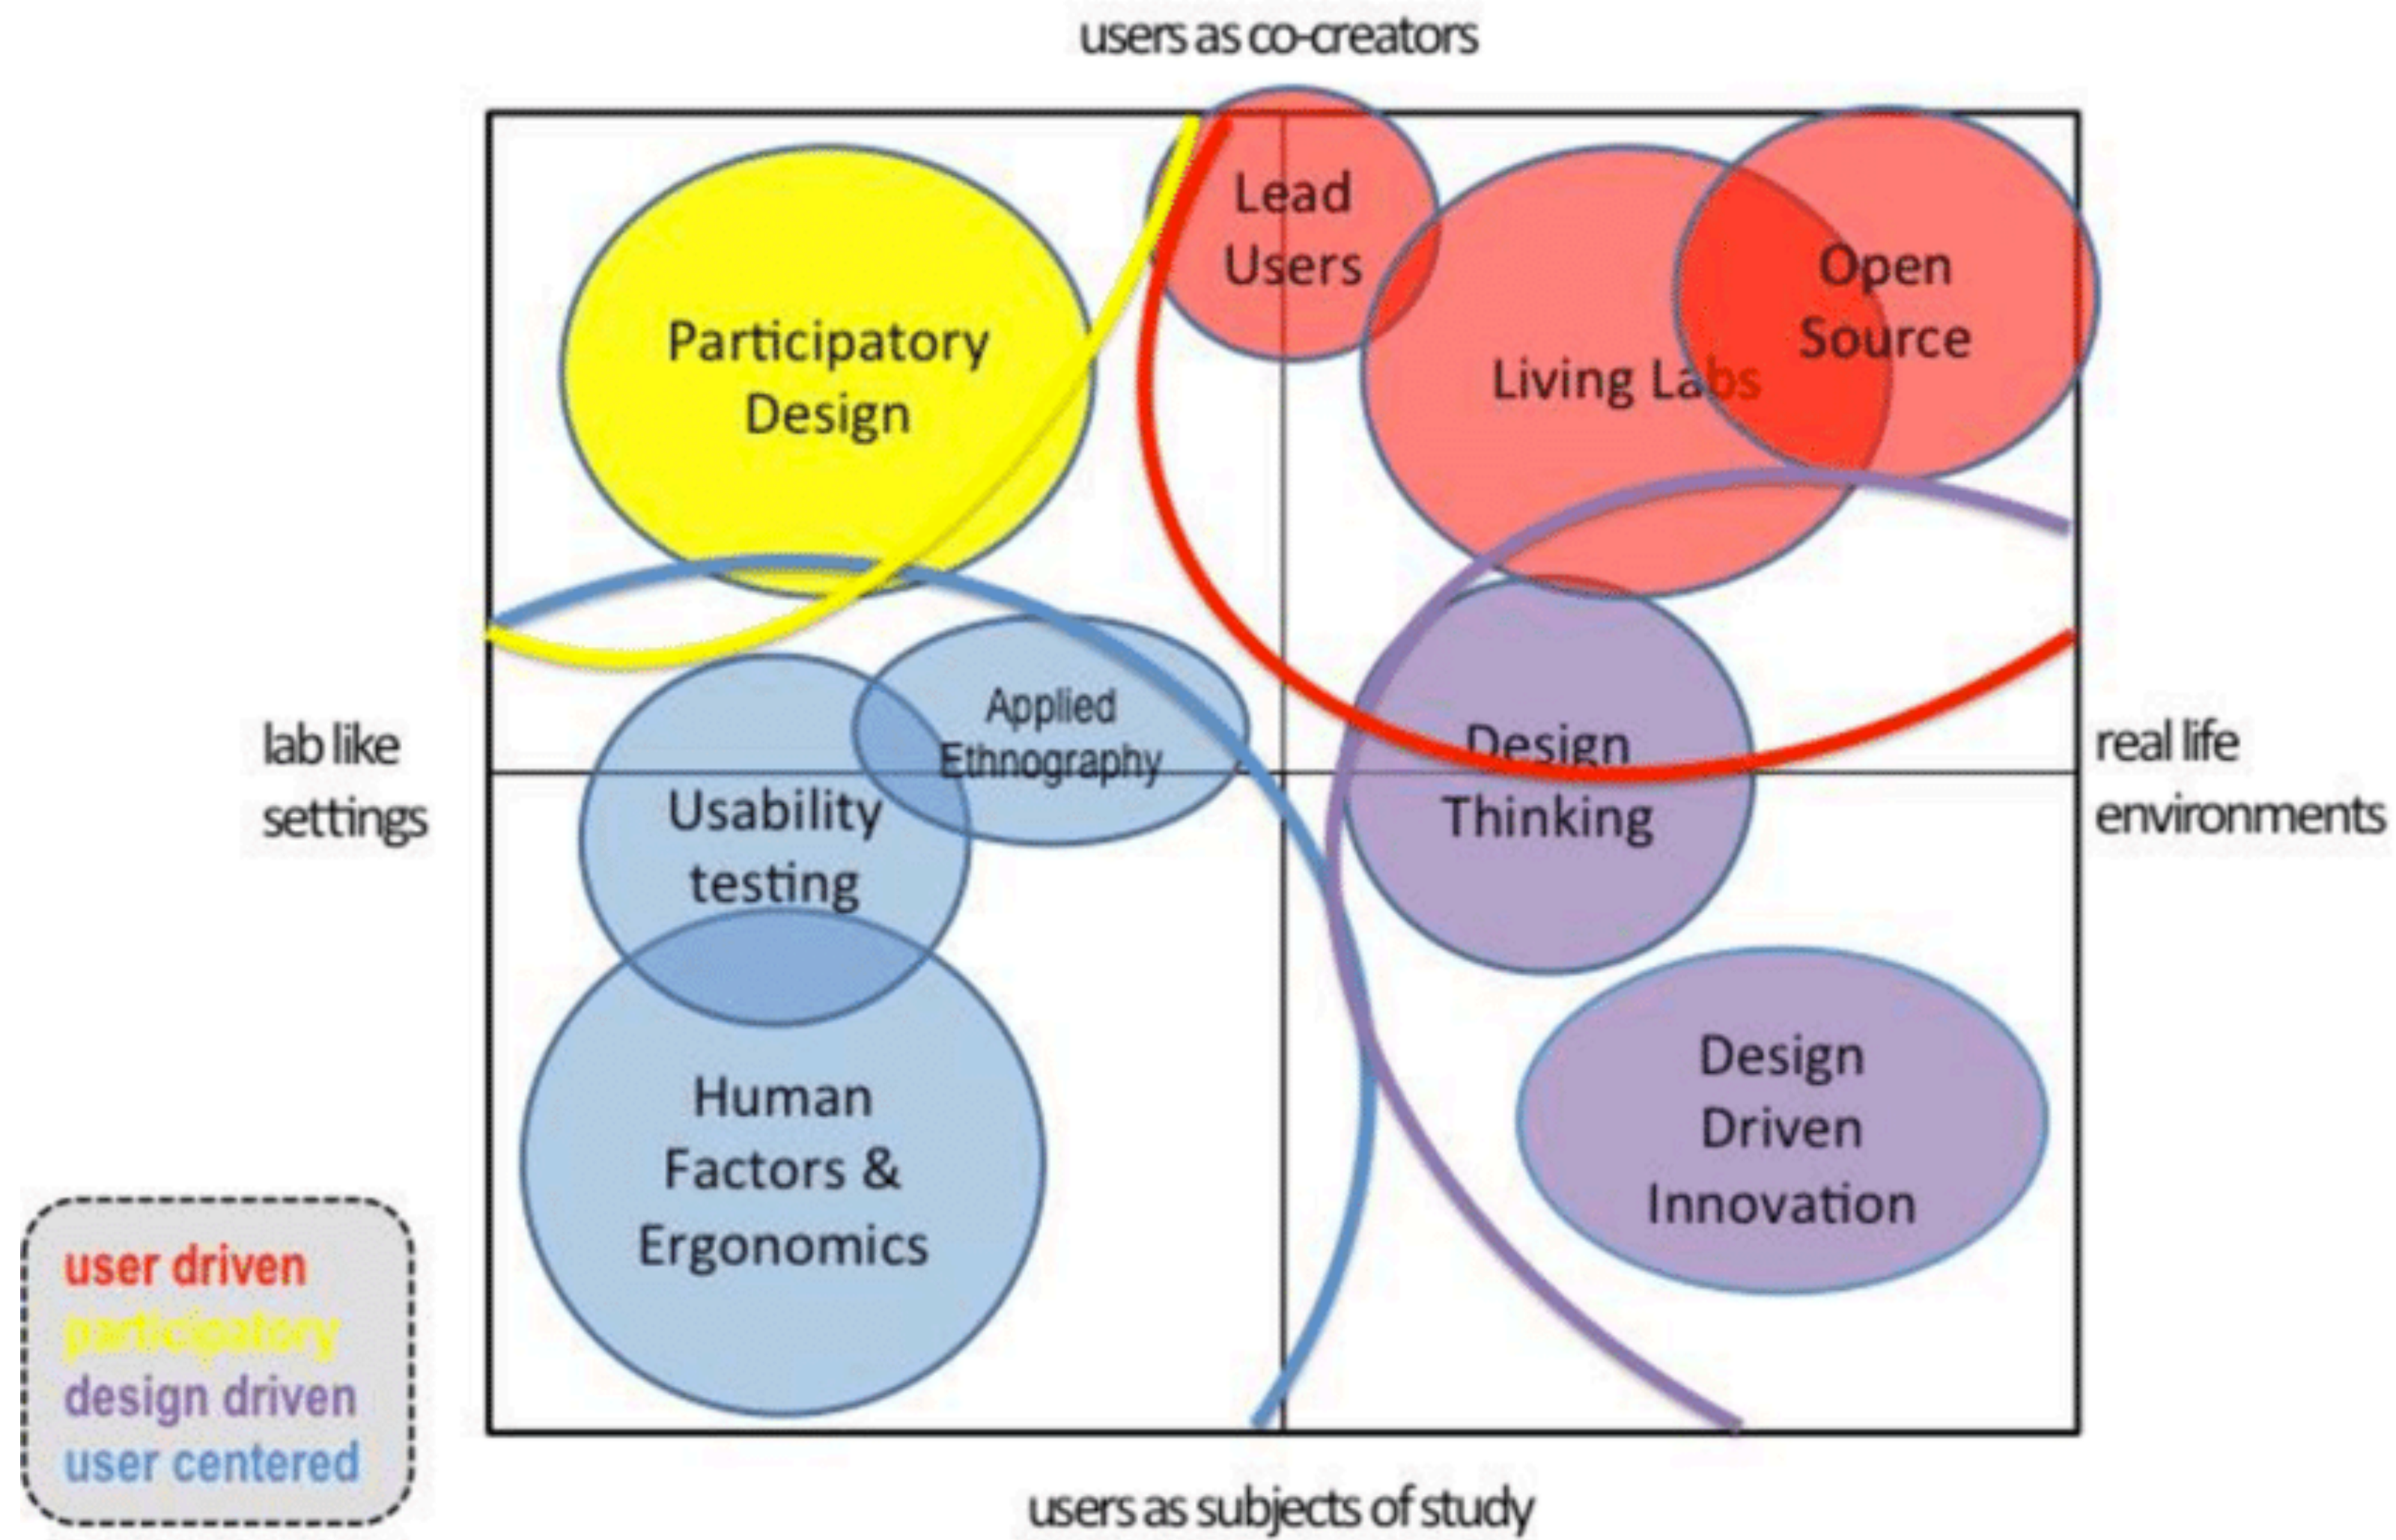

Grant funded activity is...

it's worst 'proposal first' instead of
'human first.'**

Academia ≠ Practice

What works in the 'lab' doesn't always work in the field.

Doing/Thinking

I was working on my laptop. In a different city.

Happy/alooof

Before the incident

Doing/Thinking

After hearing what happened, I watched the news and read twitter.

Scared/worried

During the incident

Doing/Thinking

I contacted my friend who had a brother in the incident. Started a slack support group.

Desperate to help

After the incident

Doing/Thinking

I checked twitter

Bored

Directly before the incident

Doing/Thinking

Asked people if they were safe on facebook etc.

Panicked

Directly after the incident

Homework*

Think of a deeply upsetting event in your life and try to begin to 'Journey map' this event.

How did we make sure we did this ethically?

- ~ Researchers went through the same process
- ~ Researchers examples built a compassionate connection
- ~ Attendees notified pre-workshop of subject matter
- ~ Psychological support on site
