STRATEGIC

A Skunks' whole-system thinking drives value throughout an aircraft's lifecycle and enables them to keep their sights set on the customer's mission.

QUIET

When working on breakthrough technologies and classified programs, Skunks must quickly learn how to keep a secret; however, communication is key to building mutual trust with customers.

PASSIONATE

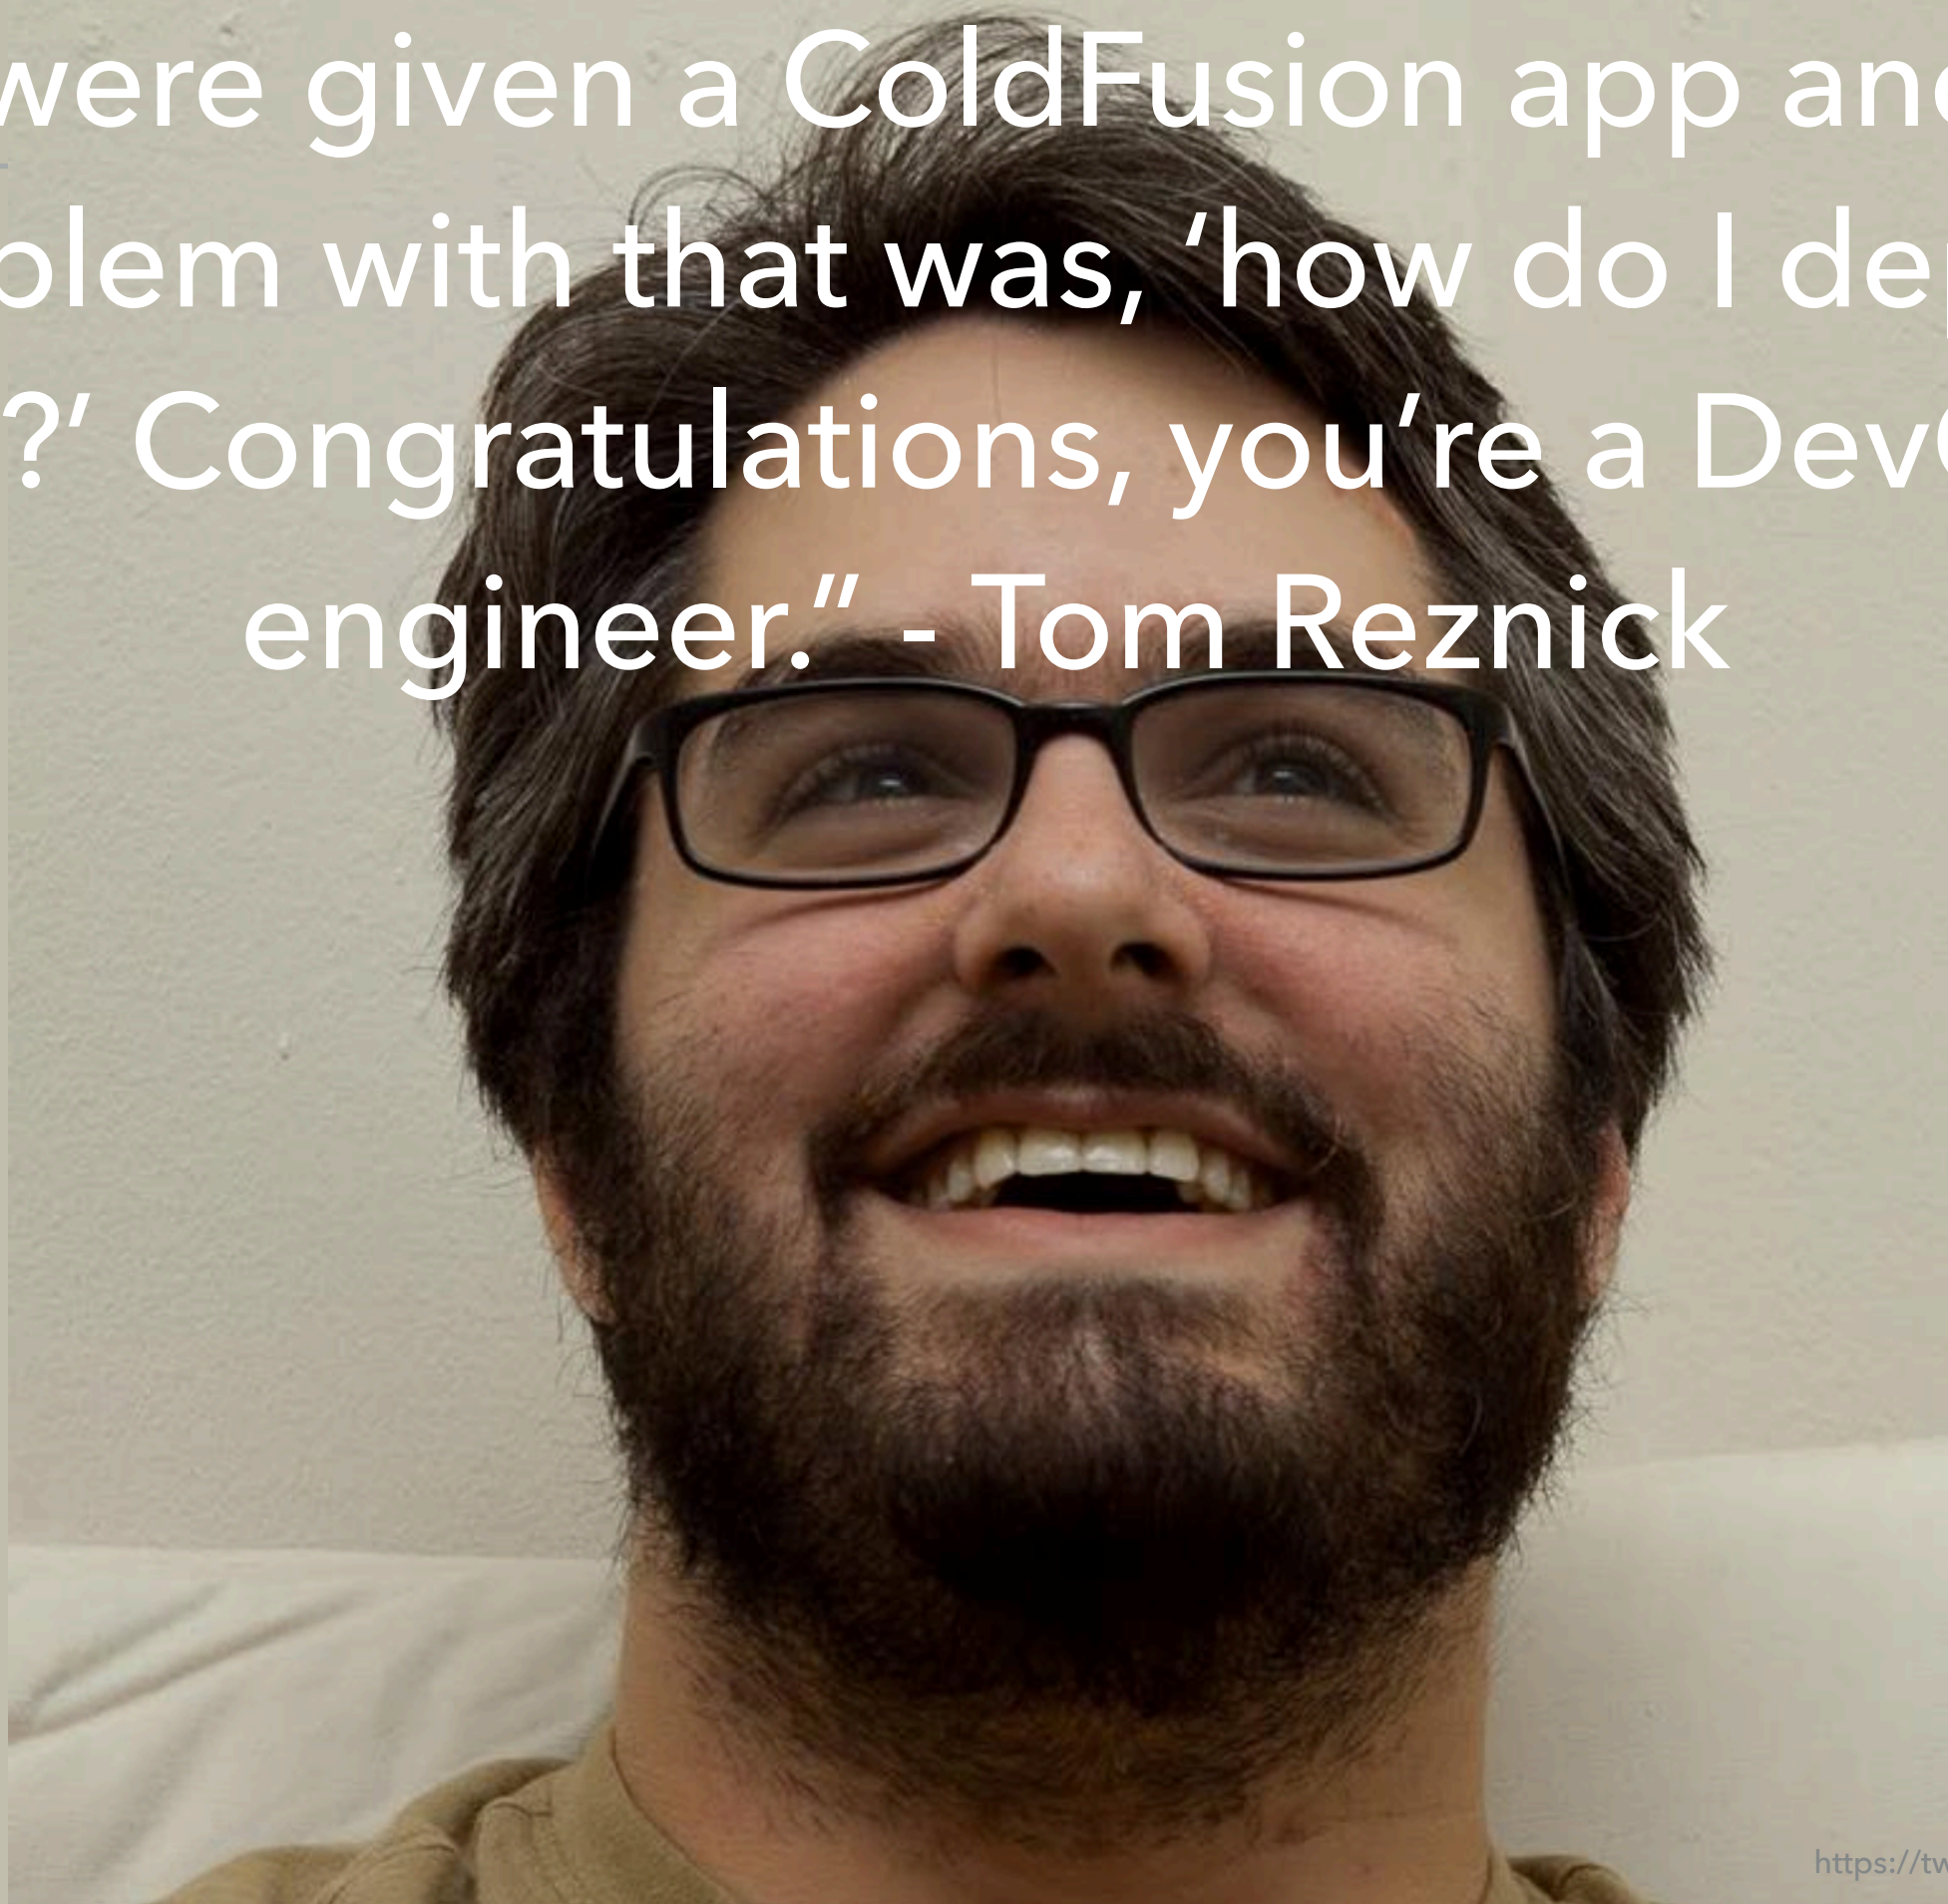

Skunks truly love a challenge and bring an honest commitment to advancing the state of flight and technology.

VISIONARY

Skunks must have the vision to look beyond today's challenges to see far into the future and identify capability gaps.

"You were given a ColdFusion app and your
problem with that was, 'how do I deploy
this?' Congratulations, you're a DevOps
engineer." - Tom Reznick

I taught myself to program as I went and got all the way to just needing a signature to save the government \$15mm/year and got the rug yanked out from underneath me.

And that was before I found IO and got involved in the community.

Think what all of YOU can do if you take initiative, lead from the bottom, and step outside of your leadership hierarchies when you need to.
