She doesn't care whether or not [the datacenter is actually on fire] just as long as [you're still delivering value]

To me, coming from you
[Blame] is a four letter word

-Friend is a Four Letter Word [reading between the lines]

There's a long line of cars and they're trying to get through
There's no single explanation, there's no central destination...

We don't wonder where we're going or remember where we've been
We've got to keep this traffic flowing and accept a little sin...

We've gotta keep this fire burning and accept a little grey...

-Long Line of Cars [Like LA traffic, there is no root cause]

-Long Line of Cars [Like LA traffic, there is no root cause]

And this long line of cars is all because of you...

And this long line of cars is all because of me.

-Long Line of Cars [nearly blameless, anyway]

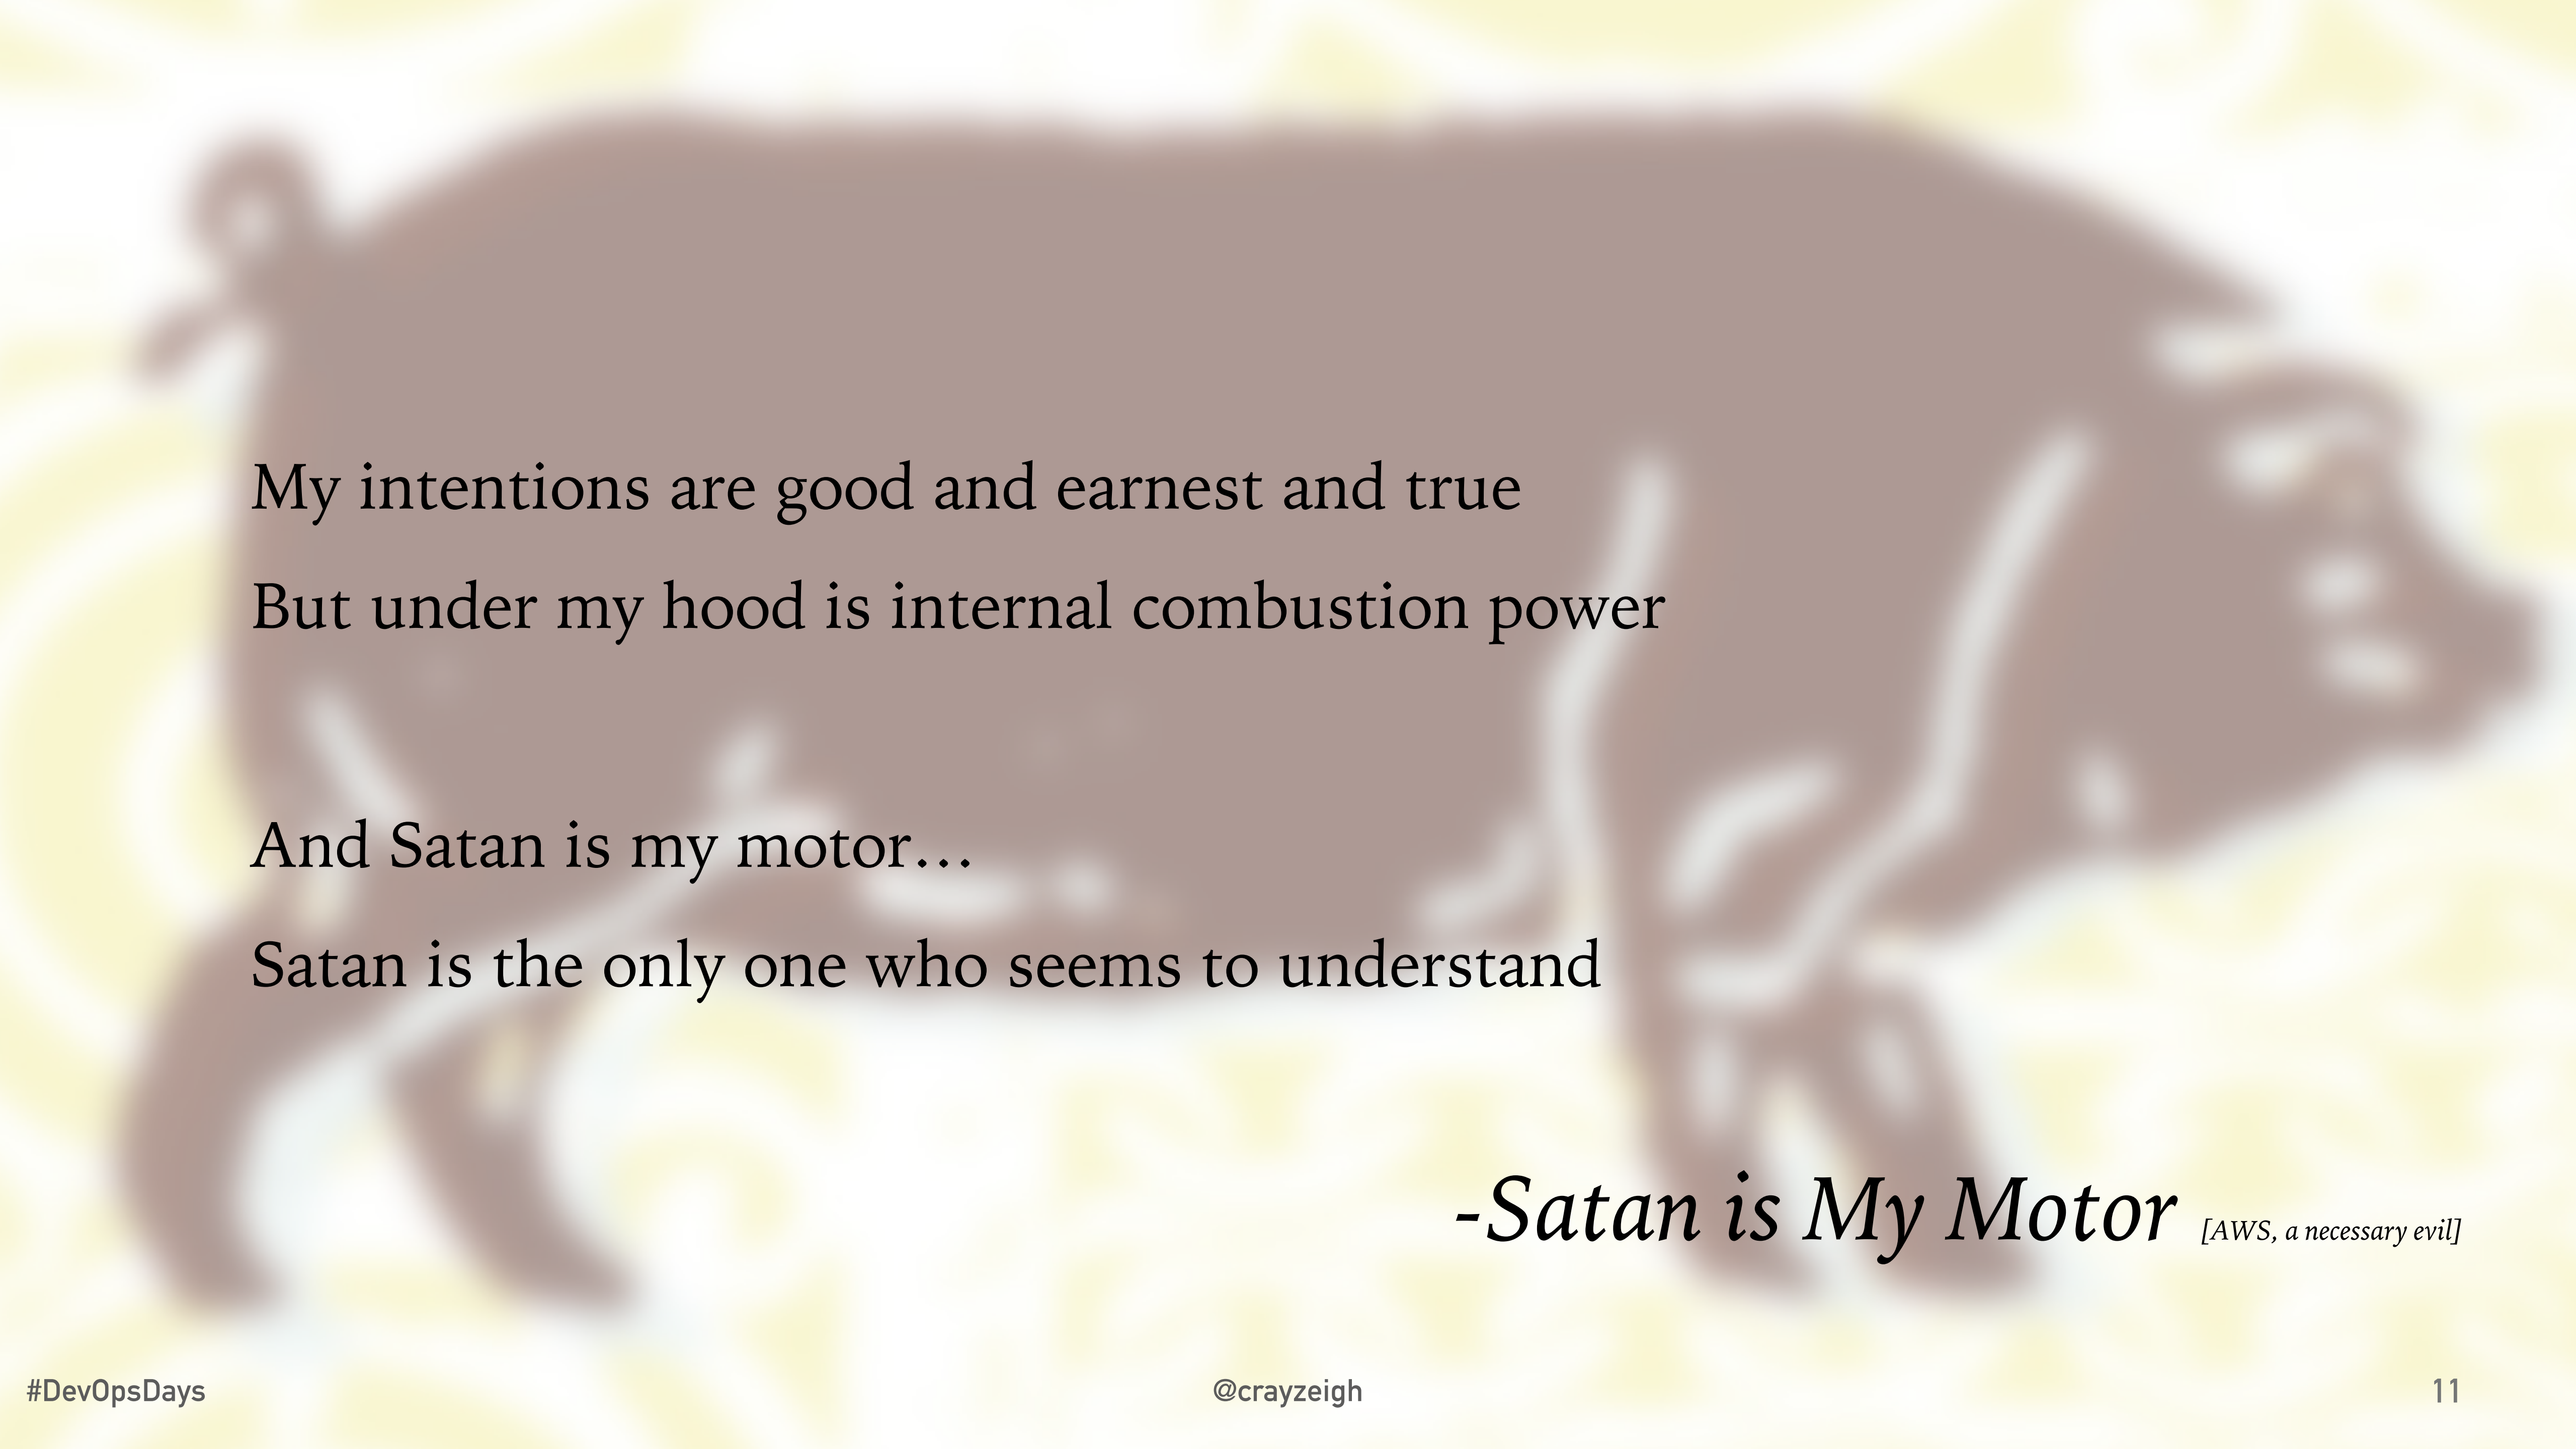

My intentions are good and earnest and true
But under my hood is internal combustion power

And Satan is my motor...

Satan is the only one who seems to understand

-Satan is My Motor [AWS, a necessary evil]

But under my hood is internal combustion power

And Satan is my motor...

Satan is the only one who seems to understand

-Satan is My Motor [AWS, a necessary evil]

I don't want to wonder
If this is a blunder
I don't want to worry
Whether we're going to stay together
'Till we die...

I want to love you madly

-Love You Madly [Vendor lock-in is the real relationship killer]

I don't want to fake it

I just want to make it...

I don't want to hold back...

I don't want to think back to that one thing that I know I

Should have done...

I don't want to doubt you

Know everything about you...

I want to love you madly

-Love You Madly [serverless, v hot in 2001]

Well your [AMI] collection looks shiny and costly
How much did you pay for your bad [lambda function]?
And how much did you spend on the [data egress racket]?
Is it you or [VC funds] in this income tax bracket?

-Rock and Roll Lifestyle [Cake had deep feelings about Amazon]

Now tickets to [Re:Invent]

And drinking at clubs

Sometimes for [services] you haven't even heard of

And how much did you pay for your [Amazon] T-shirt

That proves you were there

That you heard of them first?

How can you afford your [Amazon] lifestyle?

-[Amazon] Lifestyle [Ask Corey Quinn if you need help getting control]

Stick shifts and SAFe-ty belts
Bucket seats have all got to go

-Stickshifts and Safetybelts [SAFe isn't Agile and I'm pretty sure Scrum is a disease]

Stick shifts and SAFe-ty belts
Bucket seats have all got to go

-Stickshifts and Safetybelts [SAFe isn't Agile and I'm pretty sure Scrum is a disease]

Well I have passed the test
Just like all the rest
But never really understood
The reasons why they took it
In the first place

-Pentagram [Certifications, Sacrificial rites, what's the difference?]

We are building a religion

We are making it bigger...

It is useless to resist...

We're the only ones to turn to

When your castles turn to sand...

Take a bite of this apple...

-Comfort Eagle [Join the cargo cult]

As soon as you're born you start dying
So you might as well have a good time
