#### Platform engineering vs. DevOps: What's the difference?

Apr 13, 2023 — **DevOps** teams create the software, with a focus on accelerating delivery and enhancing quality, whereas **platform engineers** implement and manage ...

People also ask :

Is platform engineer same as DevOps? #DPE

speaking.jbaru.ch

what is platform engineering in one sentence

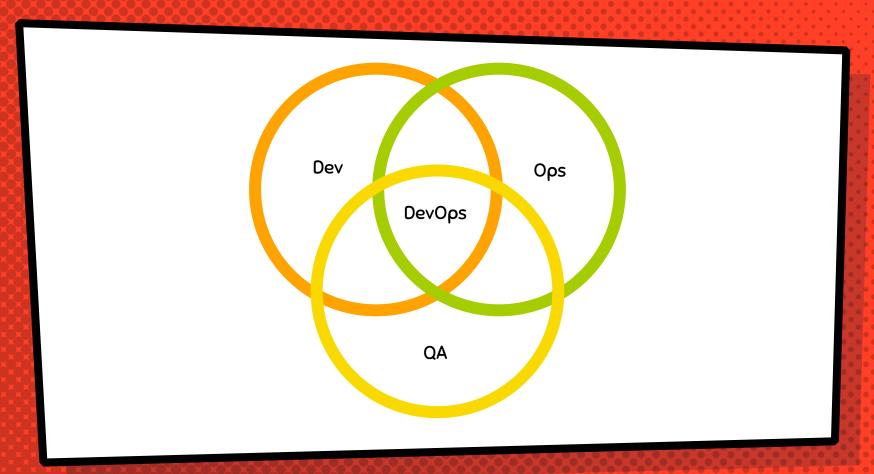

Platform engineering is the process of designing, building, and maintaining the underlying infrastructure, including software platforms, systems, and services, that software developers use to create and deploy applications more efficiently.

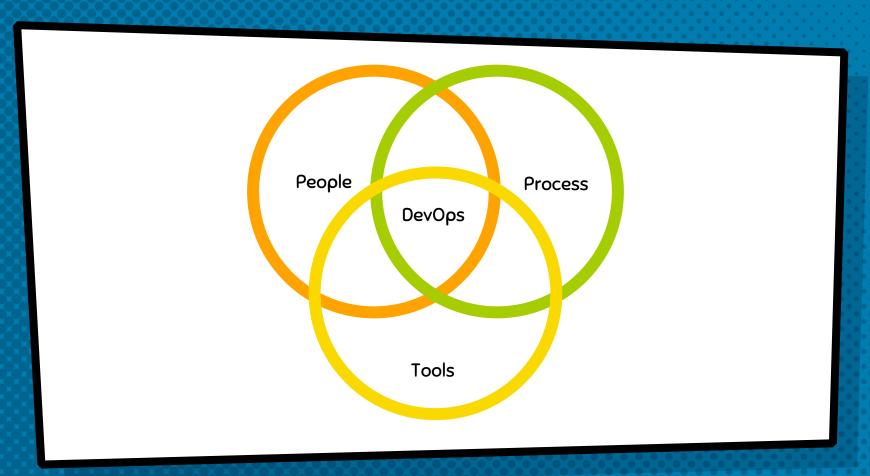

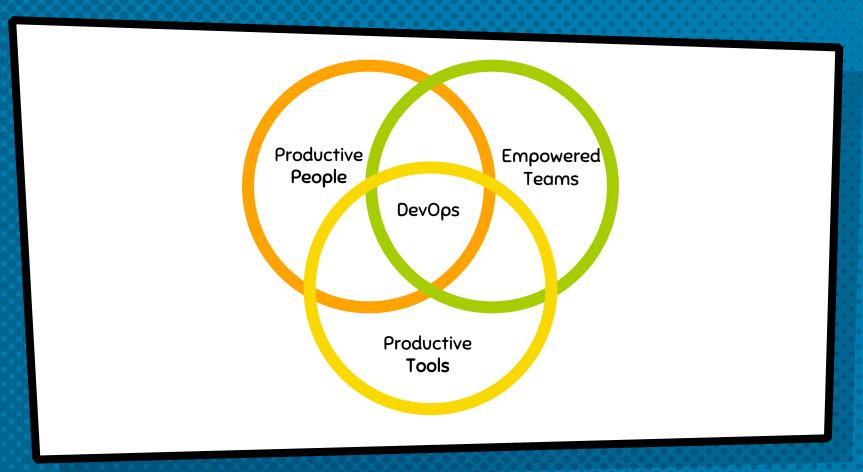

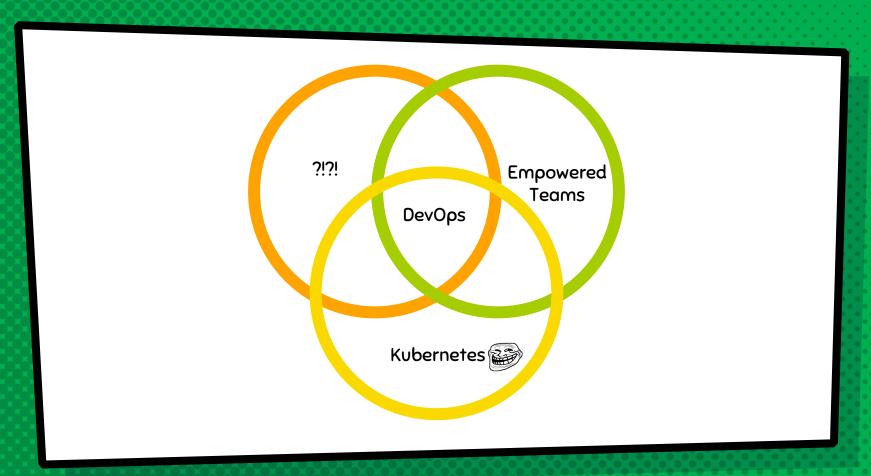

## THE PAIN IS REAL

Builds and Tests are Slow!

92% of surveyed IT organizations experienced challenges with too much time spent waiting on build and test feedback.

Foster Faster Feedback

Collaborate through Effective Tooling Embrace Rigorous
Observability for
Proactive Improvement

Eliminate Toil for Developers Prioritize Automation and Eliminate Bottlenecks

Dedicated
Organizational Mindset

**Outcomes Over Output** 

## DEVOPS? SRE? PE? DPE?

- DevOps is a collaborative methodology
- × It needs engineering implementation
- × Call it SRE or call it PE, someone has to write all those YAML files
- × But what about People Productivity?
- DPE has the answer and it's another pillar of DevOps Engineering implementation
