      "image description"
      "image form";
    grid-template-columns: repeat(1, 1fr) 3fr;
  }
  /*
  Reason for this syntax: In our build process, spaces get lost in container queries.
  The CSS parser can handle missing spaces after quotation marks and closing parenthesis.
  TODO: After updates, replace with
  grid-template:
    "image description"
    "image form"
    /1fr 3fr;
  */
}
```
