How DevOps Is Like Making Paper Airplanes
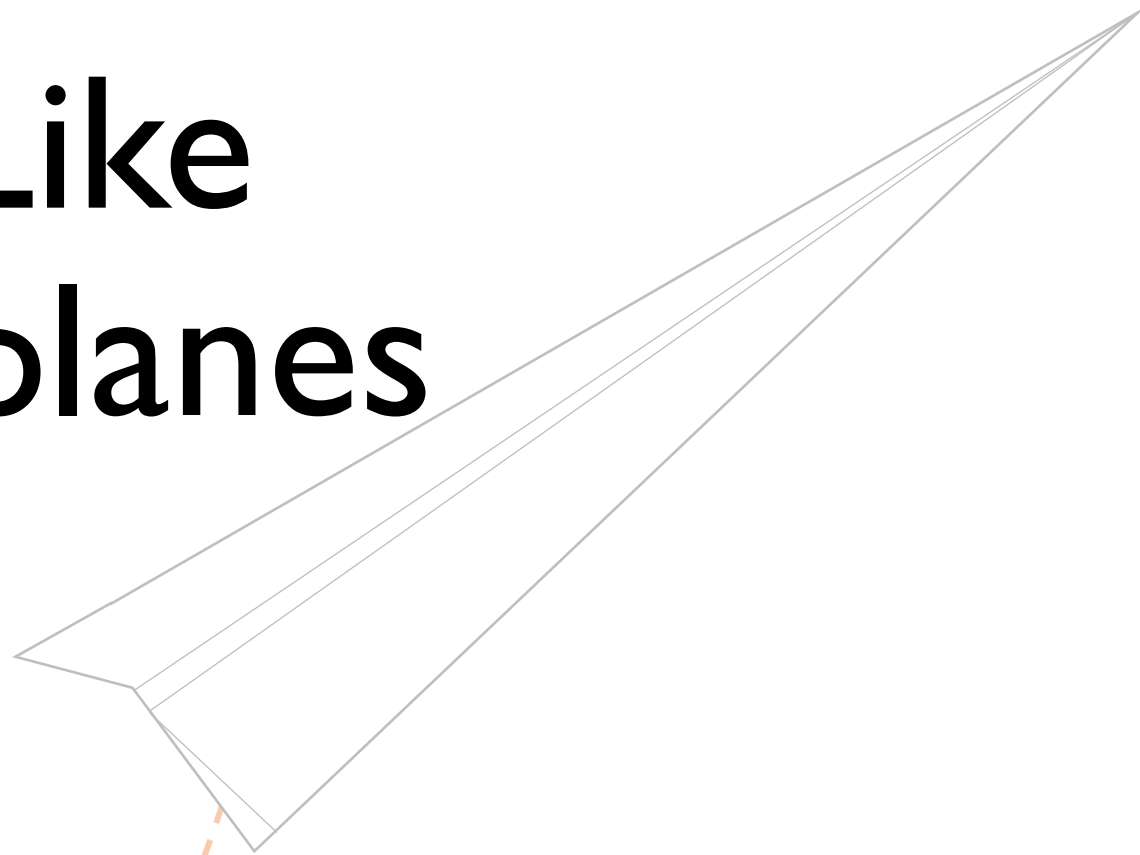

Laura Santamaria
Lead Developer Advocate
Dell Technologies

@nimbinatus

DELL Technologies

Anyone can make paper airplanes.

But what about DevOps?

@nimbinatus

DELLTechnologies

The basics are the basics

@nimbinatus

Dell Technologies

Put in the time

The classics are a great place to start

DELLTechnologies

Each mechanism is different

@nimbinatus

DELLTechnologies

Balance is everything

@nimbinatus

Dell Technologies

The dreaded rabbit hole

Dell Technologies

There are always tradeoffs

DELLTechnologies

Technique is important…

DELLTechnologies

…but there is no one way.

@nimbinatus

DELLTechnologies

Accuracy is critical

@nimbinatus

DELLTechnologies

Keep your creases sharp

@nimbinatus

DELLTechnologies

"Every flight is a test flight."

— John Collins

@nimbinatus

DELLTechnologies

When you fail, explore why and improve iteratively

@nimbinatus

DELLTechnologies

Blame means nothing.

@nimbinatus

DELLTechnologies

Sometimes you can't reuse and must rebuild.

@nimbinatus

DELLTechnologies

Remember why you're here.

Joy

DELLTechnologies

Don't take yourself too seriously.

Joy

DELL Technologies
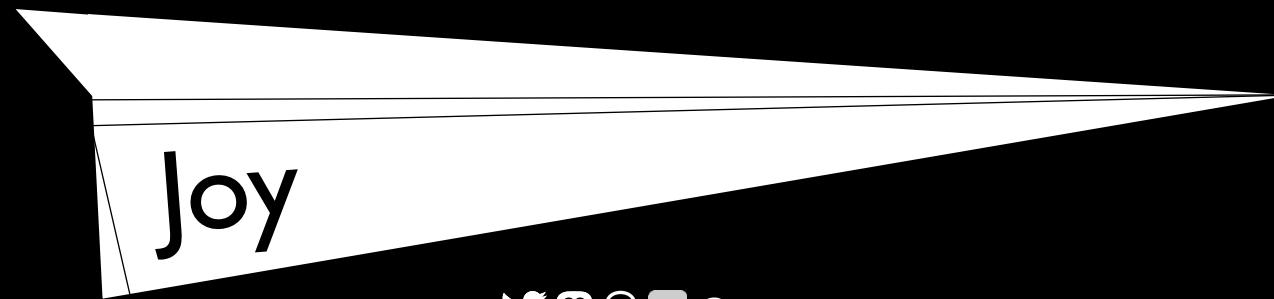

"The joy of flight is the part that matters."

– John Collins

(Thanks)
