GRAND FROMAGE

Smagsnuancer, du vil huske

Vi hjælper dig med at skabe gode smagsoplevelser, du og dine gæster vil huske, snakke om og mindes. Her finder du ingen masseproducerede oste eller pølser med lange lister af e-numre. Her får du den rene vare, skabt af ærlige råvarer og med kærlighed til den gode smag.

NORDENS OST 2015. KLOSTERMESTER FRA GRAND FROMAGE

Klostermester er udviklet af GRAND fromage i samarbejde med et mindre nordjysk mejeri. Mælken stammer udelukkende fra Vrejlev Kloster, som har 600 malkekøer. Mælkens kvalitet er fremragende, hvilket bidrager til denne fantastiske ost. Osten starter modningen i den gamle klosterkælder, hvorefter GRAND fromage overtager modningsprocessen under stærkt kontrollerede forhold.

NESTED CONTENT

Allow you to essentially attach documents of another Document Type as children, but neatly tucked away in a single property.

**HOW TO NOT HAVE TO
ACCOUNT FOR THE
BANNER'S POSITION
WHEN TAKING THE
IMAGE?**

A faint, dark image of R2-D2 is visible in the background, standing on a sandy surface. The text is overlaid on this image.

**“ACTUALLY,
R2 HAS BEEN KNOWN
TO MAKE MISTAKES...**

...FROM TIME TO TIME.”

C-3PO

**“NUPICKERS WITH

CUSTOM LABELS

» Yes, it's very simple

» But they make a whole lot of difference

NOW, ABOUT THOSE ASSETS...

ONLY UNCACHED FILES, PLEASE...

I'm so not fond of these:

```
<link rel="stylesheet" href="/css/app.css?rnd=876237474764876237">  
<script src="/scripts/9336de71-aa4b-47c8-ac8a-e80c7c02b3dc.min.js"></script>
```

```
#logo {  
    background-image: url(/images/logo.png);  
}
```

```
#icon.tools.chainsaw {  
    background-image: url(../css/skins/leather.jpg);  
}
```

OTOH, I like 👍 this:

```
<link rel="stylesheet" href="/assets/G0F2/app.css">  
<script src="/assets/G0F2/libs.min.js"></script>
```

```
#logo {  
    background-image: url(logo.png);  
}
```

```
#icon.tools.chainsaw {  
    background-image: url(leather.jpg);  
}
```

SITESETTINGS.CONFIG
