# Collect Your Workers' Compensation

Ron D. Coffel was recognized for his service to injured workers in the Southern Illinois coal industry by United Mine Workers of America (UMWA) International Vice President Jerry Jones for his representation of coal miners and their families.

Workers' compensation law entitles employees to certain types of benefits when an injury is suffered on the job or arises out of an accident during the course of employment while working. Most employers are required to carry workers' compensation insurance, which covers these sorts of injuries.

# Your Peace of Mind is Our Business

A workers' compensation claim can be aggravating, frustrating, and complicated. The delay and denial of each can cause financial stress and impact the financial resources of injured workers and their family members. If you're getting frustrated and tired of delays, denials, and unanswered phone calls from insurance adjusters, let us help you. Your peace of mind is our concern and our business in every claim we handle.
