Markdown and Image

Metric (with SQL)

```
SELECT COUNT(*) AS count  
FROM "icingabeat"
```

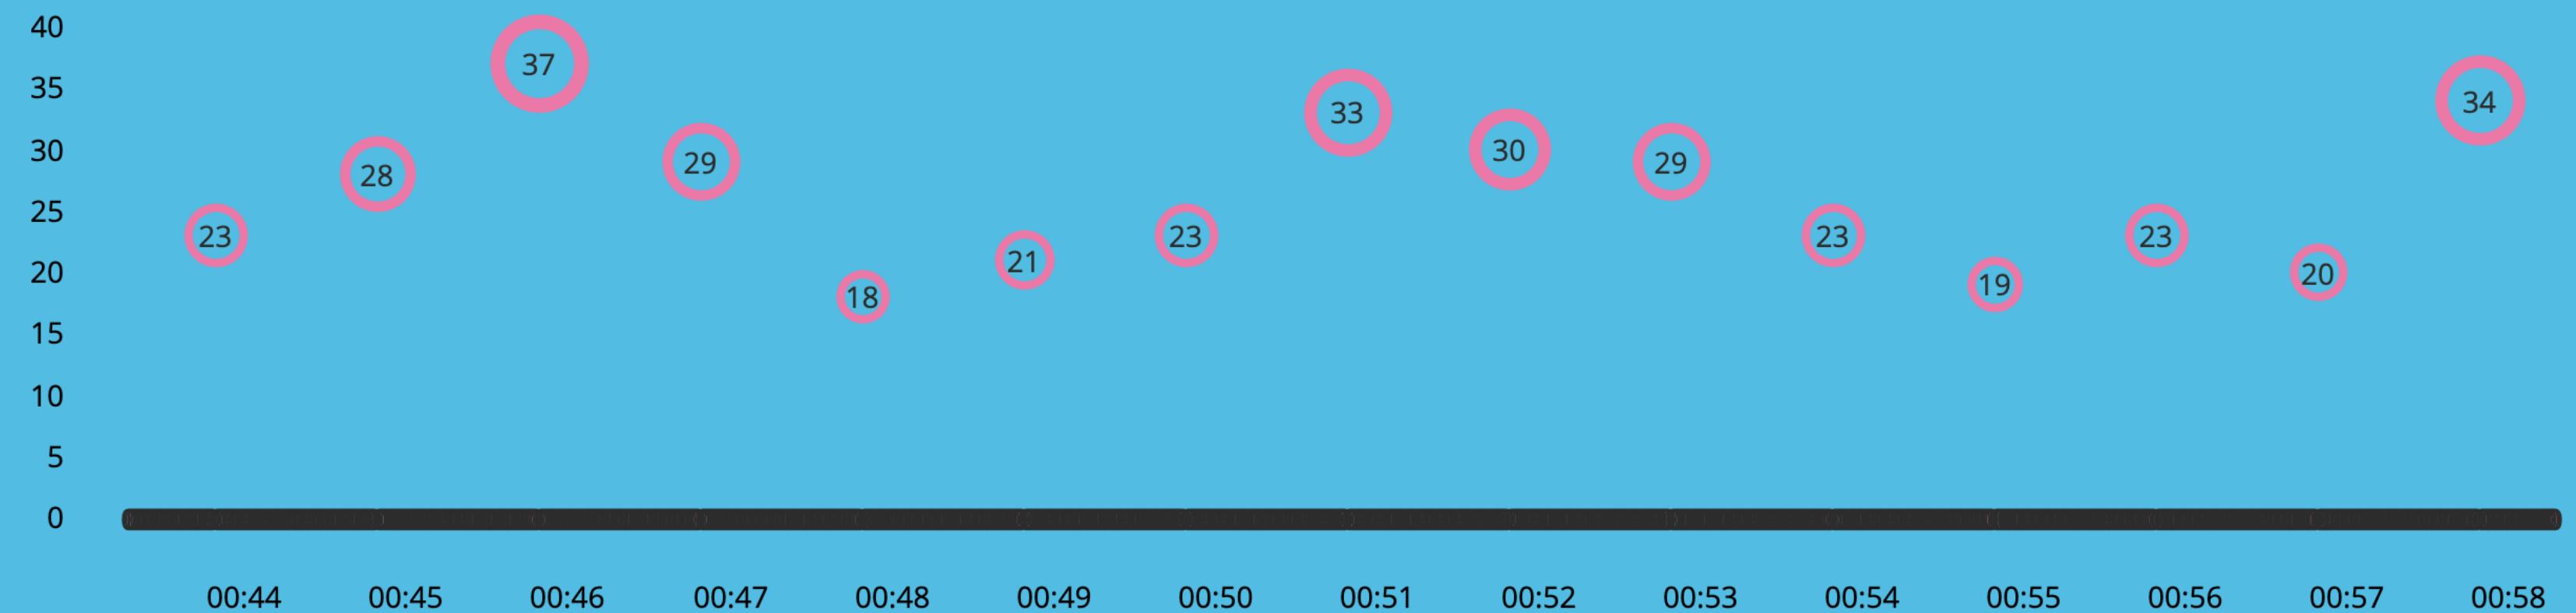

Time Filter

Linechart (Timelion)

```
filters
| timelion query=".es(index=icingabeat*, metric=avg:icinga.status.active_host_checks_1min)"
  interval="auto"
  from="now-15m"
| pointseries x="@timestamp" y="value" size="value" text="value"
| plot seriesStyle={seriesStyle lines=0 color="#ec77a8" points=5}
| render
```
