

TIL
was die Stunde geschlagen hat, Teil 3

Wenn am Himmel die Sonne untergeht ...

Wenn am Himmel die Sonne untergeht ...

 HTML

```
1 <div role="img" id="rheinturm-clock">
2   <meter id="hh" max="2"></meter>
3   <hr/>
4   <meter id="hl" max="9"></meter>
5   <hr/>
```

 CSS

```
32 &[max="2"] { height: calc(2 * var(--size)) }
33 &[max="5"] { height: calc(5 * var(--size)) }
34 &[max="9"] { height: calc(9 * var(--size)) }
35
36 &::-moz-meter-bar {
37   background: currentColor;
38 }
39
40 &::-webkit-meter-bar {
41   background: transparent;
42 }
43
44 &::-webkit-meter-optimum-value {
45   background: currentColor;
46 }
```

 JS

```
8 function refresh() {
9   [hh.value, hl.value, mh.value, ml.value, sh.value, sl.value]
10  = new Date().toString().replaceAll(':', '');
11 }
12
```
