# What is ruby?

Updated 2016-02-10 15:23

## QUESTION

What are 'ruby' annotations?

## QUICK ANSWER

**Ruby** is a name for small annotations that are rendered alongside base text. This is especially useful for Japanese and other East Asian content (ruby may be called *furigana* in Japanese).

The HTML specification provides a way to mark up ruby text, and CSS can be used to fine tune the positioning of ruby text.

## DETAILS

The name '*ruby*' originated from a named font size (about half the size of the normal 10 point font) used by British typesetters.

# Ruby

**zielgruppe:** jeder, der von Ruby gehört hat und mehr darüber erfahren möchte

## Frage

Was ist „Ruby“?

## Antwort

Der Begriff *Ruby* bezeichnet eine bestimmte Art von Annotationen. Üblicherweise wird Ruby in ostasiatischen Schriften verwendet, um die Aussprache von unklaren Zeichen oder Zeichen, die dem Leser womöglich nicht geläufig sind, anzugeben. Es wird z.B. oft in Lehrmaterialien und Texten für Kinder verwendet. Machmal wird es auch verwendet, um Informationen zur Bedeutung anzugeben.

Im Japanischen, wo Ruby *Furigana* genannt wird, stehen phonetische Transkriptionen üblicherweise in Hiragana über horizontal geschriebenem Text bzw. rechts von vertikal geschriebenem Text.

Beispiele für horizontal und vertikal geschriebenen Text unten und rechts. **Anmerkung:** Das Ruby in den Beispielen auf dieser Seite ist nur zur Verdeutlichung rot hervorgehoben – normalerweise ist es in derselben Farbe wie der Text.

第十箇世

Ruby może być również stosowany przy nieazjatyckich adnotacjach oraz do obsługi tekstu międzywierszowego.

### dodatkowe informacje

Termin wywodzi się od nazwy rozmiaru czcionki (5pt) używanej przez drukarzy.

Do obsługi ruby za pomocą znaczników stosuje się [notacje ruby](#), które są rekomendacją W3C oraz częścią XHTML 1.1 od maja 2001 roku. Do obsługi przez ruby stylów istnieje [CSS3 Ruby Module](#) (obecnie na etapie Candidate Recommendation.)

Informacje na temat obsługi ruby przez przeglądarki można znaleźć w sekcji [Implementing Ruby](#) przewodnika Ruby Markup and Styling.

## by Bob Dylan

Before you call him a man?

Before she sleeps in the sand?

## Before they're forever banned?

The answer, my friend, is blowin'

in the wind

The answer is blowin' in the wind

1 lyrics: custom element <x-l>

Gunnar Bittersmann

Blowin' in the Wind

by Bob Dylan

How many roads must a man walk  
down  
Before you call him a man?  
How many seas must a white dove  
sail  
Before she sleeps in the sand?  
Yes, and how manytimes must the  
cannonballs fly  
Before they're forever banned?  
The answer, my friend, is blowin'  
in the wind  
The answer is blowin' in the wind

2 lyrics: text-indent: hanging each-line

```

# Blowin' in the Wind

by Bob Dylan

D<sub>b</sub> G<sub>b</sub> A<sub>b</sub> D<sub>b</sub>  
How many roads must a man walk down

G<sub>b</sub> D<sub>b</sub>  
Before you call him a man?

G<sub>b</sub> A<sub>b</sub> D<sub>b</sub>  
How many seas must a white dove sail

G<sub>b</sub> A<sub>b</sub>  
Before she sleeps in the sand?

D<sub>b</sub> G<sub>b</sub> D<sub>b</sub>  
Yes, and how many times must the cannonballs fly

G<sub>b</sub> D<sub>b</sub>  
Before they're forever banned?

G<sub>b</sub> A<sub>b</sub> D<sub>b</sub> G<sub>b</sub>  
The answer, my friend, is blowin' in the wind

D<sub>b</sub> A<sub>b</sub> D<sub>b</sub>  
The answer is blowin' in the wind
