- New!
 - Philipp 🇩🇪 @matheusdev23
 - Brian 🇺🇸
 - Helder 🇧🇷 @agentofuser

- Hiring!
 - Marketing Writer:
talk.fission.codes/t/1396

FISSION DEMOS

- Account Dashboard - Philipp
 - <https://github.com/fission-suite/dashboard>
- App Generator - Brian
 - <https://github.com/fission-suite/pwa-generator>
- Fission Github Action - James
 - <https://github.com/fission-suite/publish-action>

ROADMAP ITEMS

- **CLI Linking:** Link your CLI account to the web
- **Account Recovery:** Designed for hardest case: user with a single smartphone
- **Customized Login:** Brand Fission Auth with your app logo, theming, custom description (Omo)
- **Headless WordPress**
- **Headless Ghost**

CURRENT FOCUS / WHAT'S NEXT / Q&A

- Reliability: js-ipfs, continued webnative tuning
- Speed: IPFS cluster, nodes in Europe
- Data Consistency: backend service to notify that conflicting data exists, webnative front end that works with this
- Projects:
 - Filecoin: Svelte-based Backup App, Cosigner

COMMUNITY DEMOS

- HyperDraft, by Rosano
 - <https://hyperdraft.rosano.ca/>

Network your ideas.
Link between notes via `[[wiki]]` syntax.

Make a website.
Publish notes to the Internet via remoteStorage.

Your data on all your devices.
Automatic cloud sync with remoteStorage.

No Wi-Fi, no problem.
Works offline without internet access.

Accessible anywhere.
Works on mobile, tablet, and desktop devices.

Efficient workflow.
Keyboard shortcuts for most things.

Blind-friendly.
Text labels on all elements.

Private, not creepy.
Ad-free, analytics-free, tracker-free.

Own your data.
100% yours in a [Odata](#) app.

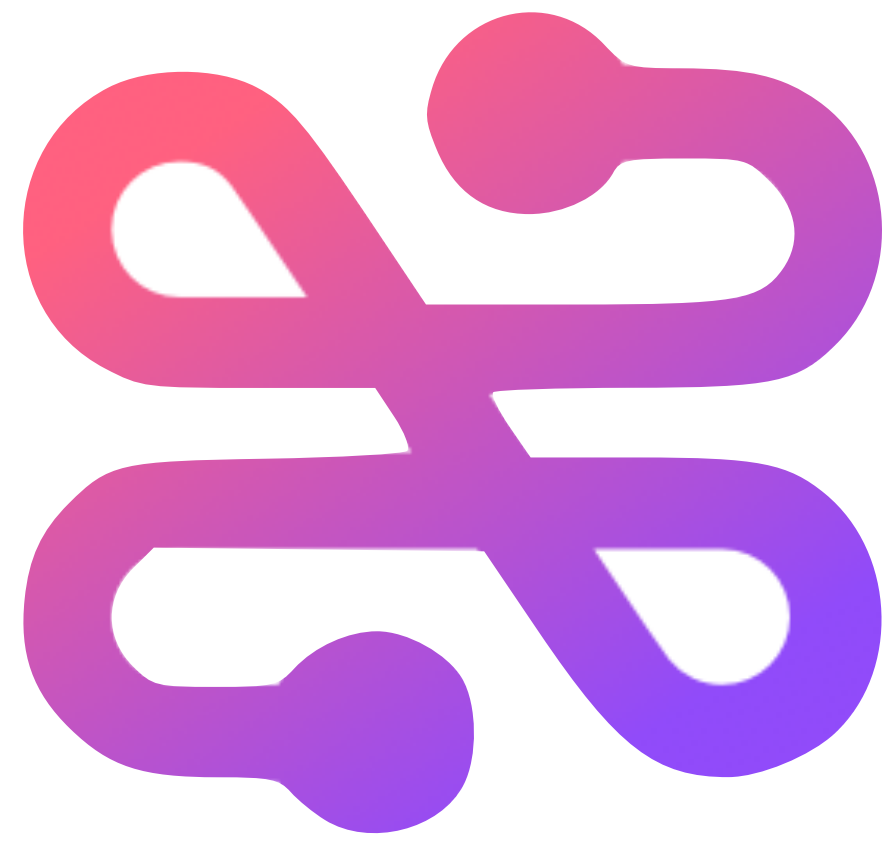

ANNOUNCEMENTS, NEWS, Q&A

- Anyone have announcements to make or news to share?
- General Q&A
