

Smiles On 35th: A Recognized Clinic with Special Facilities

With the surge of innovative treatments, dental clinics are charging exorbitantly these days. But have you ever considered whether or if an upgraded technique is worth it or not? True, most sophisticated techniques are aimed at lowering treatment costs, but dentists nonetheless charge a lot since they employ old methods. Patients have nowhere to trust because most medical insurance policies do not include dental treatment. If you want a long-term resolution to your dental problems, it's always best to trust a facility that follows honest policies. But where do you get a dental clinic like that? Our top recommendation for general dentistry and [orthodontics Seattle](#) would be Smiles On 35th.

Smiles on 35th is a Seattle-based dental clinic that has provided excellent service to a significant number of people in the region. They provide a comprehensive range of services, including general dentistry, oral surgery, crowns and bridges, cosmetic dentistry, [Seattle invisalign](#), and more. Their purpose is to serve society while also considering the needs of their patients. They stay quite away from marketing methods and company strategies that use the patients for money making. Here we have described a few points that make them a special clinic in Seattle:

High-Quality Equipment:

Smiles On 35th is particularly recognized for its high-tech equipment, which allows them to provide patients with instant help. They are now adopting high-end technology such as CEREC CAD/CAM, which allow dentists to offer dental crown procedures in as little as one day. Other innovations include the iTero Scanner, which allows dentists to give a clean and germ-free dental surgery experience for patients. At Wedgwood family dentistry, they also employ

additional technologies such as Cone Beam CT, which produces very accurate 3D pictures that aid dentists in properly diagnosing the disease.

Safety Measures:

Smiles On 35th has always provided the best quality of care to its patients on a personal basis. They are doing the same to avoid COVID spread and community transmissions during the pandemic. This is why they have renovated a big portion of their facility to conform with social distancing rules while also providing more services to their patients. They have installed all new HEPA filters in their facilities, ensuring a constant supply of breathing, germ-free air. They've also implemented digital payments and form-filling procedures to eliminate face-to-face interaction.
