REMEMBER WHO COMES FIRST

NOKIA htc

1. MAKE A LIST OF DEVICES

2. FIND AN EASY STARTING POINT

3. EMULATE DEVICES

4. TEST ON REAL DEVICES

device-lab

OPENDEVICELAB.COM

What is an "Open Device Lab"?

The fragmentation of operating systems and browsers as well as the diversity of internet-enabled devices makes it impossible for the vast majority of developers to personally own a representative pool of test devices. Nevertheless, **quality assurance** across real devices is a must to ensure a pleasant user experience, sufficient stability and security.
