Dell Technologies

DELLTechnologies

How do you make this transformation stick ???

DELL Technologies

Physics Example

Unstable

Stable

People, Infrastructure, Software

People, **Infrastructure**, Software
People, Infrastructure, **Software**

DELLTechnologies

Two Cases

DELL Technologies

A stable people system

An unstable people system
One person doing the glue work

DELLTechnologies

A stable infrastructure system

DELLTechnologies

An unstable infrastructure system

?

No one knows how
the general concepts
of infrastructure work.

DELL Technologies

A stable software system

An unstable
software system

?

Too many shiny new software tools to choose from
How do I identify **stable** equilibrium?

How do I minimize perturbations?

What about SRE ?

What about Platform Engineering ?

Find Your Equilibrium

(Thanks)
