# Tripping Through Technology

---

Hi. I'm Jess.

---

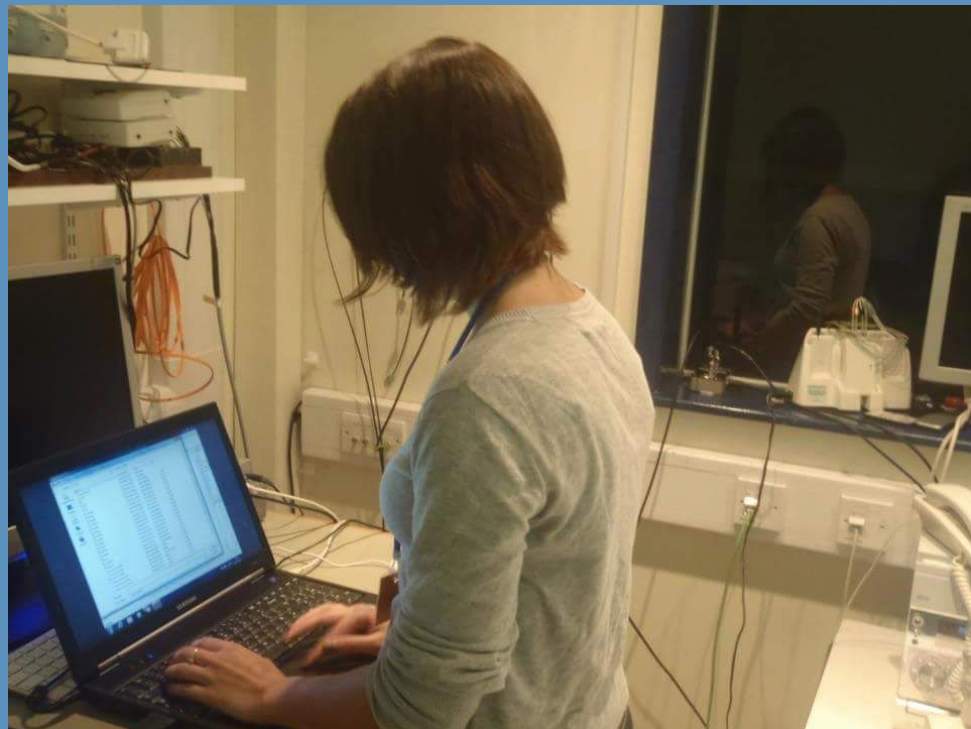

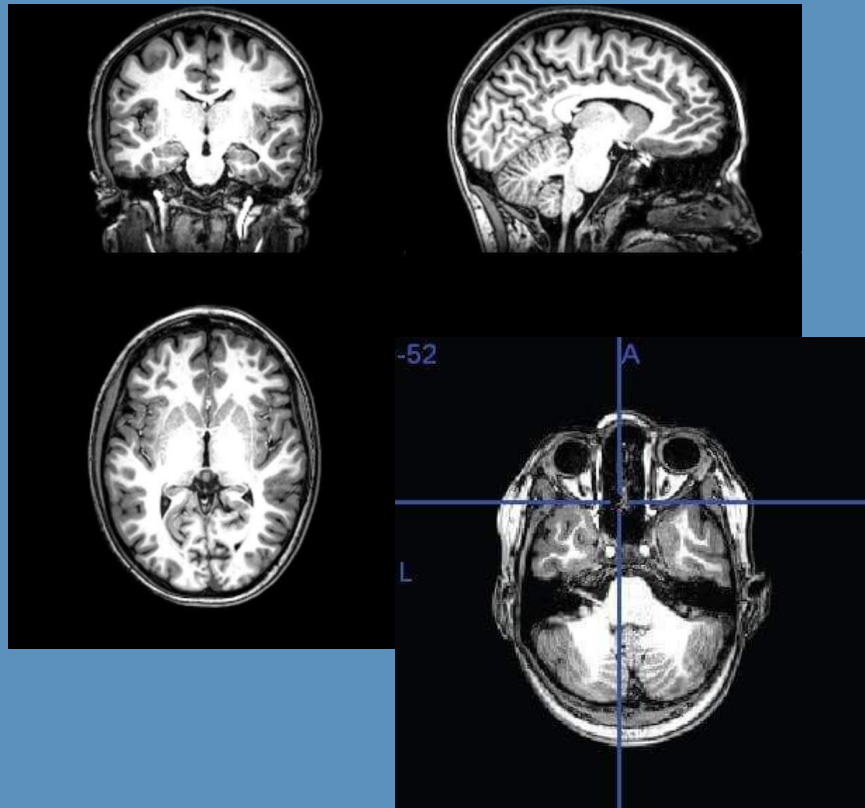

Developer  
Lead  
Speaker  
Event Organiser  
Microsoft MVP  
Other...

---

It all started with  
a failure....

---

---

One year-(ish)  
later...

---

# Developer!

---

What there is  
outside the code.

---

# Pull Requests

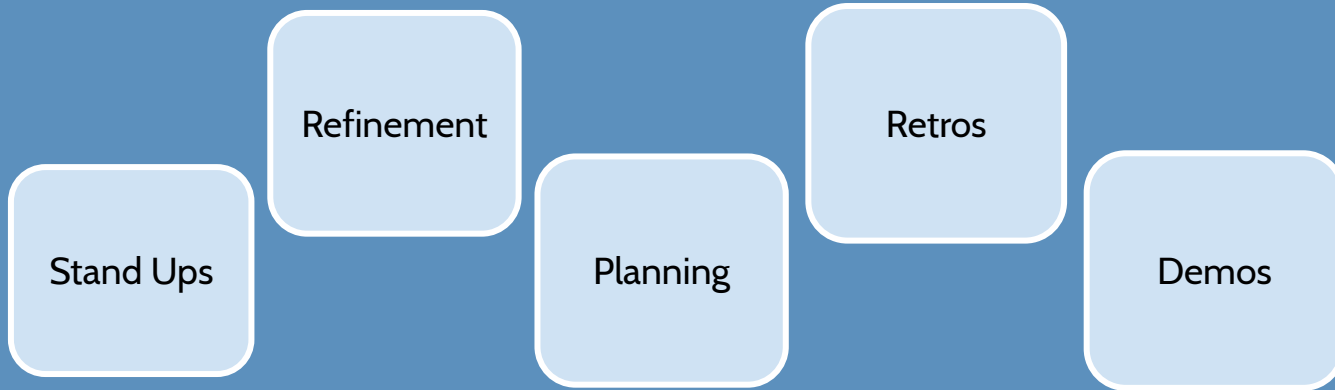

The screenshot displays a GitHub pull request interface with a diff view. At the top, it shows 'Changes from all commits', 'File filter...', 'Jump to...', and '0 / 17 files viewed'. A 'Review changes' button is visible in the top right.

The diff view shows three files with changes:

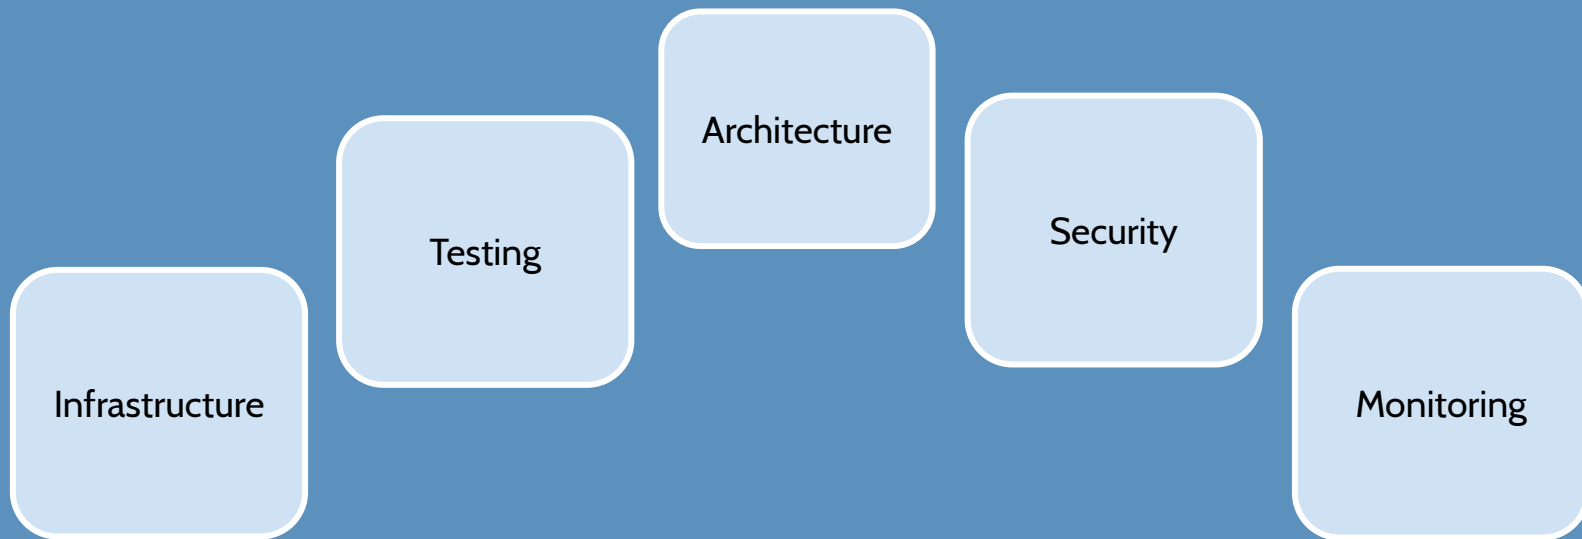

- .gitignore** (3 changes):
  - Line 5: `- _site/` (deletion, highlighted in red)
  - Line 5: `+ _site/` (addition, highlighted in green)
  - Line 6: `+ coverage` (addition, highlighted in green)
- .travis.yml** (1 change):
  - Line 10: `+ npm run test` (addition, highlighted in green)
- babel.config.js** (14 changes):
  - Line 1: `+ module.exports = {` (addition, highlighted in green)
  - Line 2: `+ presets: [` (addition, highlighted in green)
  - Line 3: `+ [` (addition, highlighted in green)
  - Line 4: `+ 'next/babel',` (addition, highlighted in green)
  - Line 5: `+ ]` (addition, highlighted in green)

At the bottom, there is a 'Write' section with a 'Preview' tab and a text area containing 'Leave a comment'. A rich text editor toolbar is visible above the text area. Below the text area, it says 'Attach files by dragging & dropping, selecting or pasting them.'

Tips.

---

If you learn something  
from an experience,  
you haven't failed

Tech has many  
opportunities so it's ok  
to change your mind.

Get involved in your  
tech community.

Take all the  
opportunities you can,  
while caring for yourself.

Listen.  
Ask questions.  
Experiment  
Learn.

Reading and writing  
documentation is a skill.

Google is your friend.

Listen.  
Ask questions.  
Experiment  
Learn.
