

BERLIN OPEN SOURCE SALON

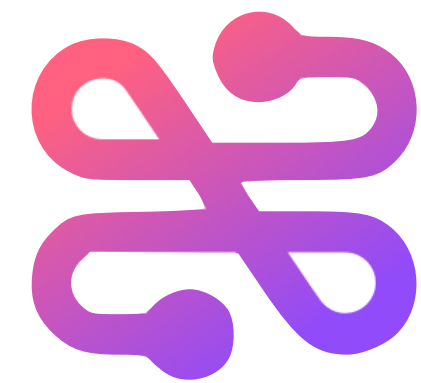

#BOSS19

AUGUST 2019

WELCOME!

**CHE
RRY**

Patrick Mayr

fission

Boris Mann

WHAT DOES OPEN SOURCE MEAN?

The problem with the term open source is that everyone means something different when they use it.

Some people just mean licensing.

Some people think of a particular community's set of practices.

Others think that it means some kind of fuzzy democracy and mob rule.

DEFINITION OF OPEN SOURCE

1. Legal innovation of licenses
2. Way of working together on shared code, collaboratively, asynchronously, remotely
3. Ideology

FREE AS IN PUPPIES

- The classic explanation of open source is that it is “free as in speech” (a license or ideology) not “free as in beer” (no cost)
- I like to say open source is “free as in puppies” — congratulations, you just got given an untrained young animal that needs care and feeding if you expect it to succeed!

FREE AS IN PUPPIES

- Please ask before
- I like to say open source is “free as in puppies” — congratulations, you just got given an untrained young animal that needs care and feeding if you expect it to succeed!

COMMONS BASED PEER PRODUCTION

**Lots of people work on it,
everybody benefits from it, and
then people can build upon it
(even in a revenue generating
fashion)**

[Ted Leung: Explaining Commons Based Peer Production, er, Open Source \(2005\)](#)

AGENDA 1

14:30

Opening Remarks, Boris Mann, Patrick Mayr

14:45

Coordination Problems, Foss, And Cryptocurrencies, Eleftherios Diakomichalis

15:15

Jovo: Building An Open Source Business In Germany In 2019, Jan König

15:45

Fireside Chat: Simon Willnauer, Founder Elastic

16:15

Lemonade Break!

AGENDA 2

16:45

Sourcecred: Building An Open Source Economy, Dandelion
Mane

17:15

Panel: Venture Investing And Open Source

17:45

Open Source In Science & Pharma: From Patents To Open
Markets, Paul Kohlhaas

18:15

Fishbowl: Building Community And All Things Open Source,
Facilitated Conversation, Abbey Titcomb, Boris Mann

18:45

Closing Remarks

FRIENDS SPACE

- Use #BOSS19 if you're sharing - ask permission
- WiFi friendsoffriends
- Law of Two Feet - grab a corner or couch, please keep your voices down during presentations
- Evening from 20:00 is Open Space

**BE EXCELLENT
TO EACH
OTHER!**

CLOSING REMARKS

🔗 2019

- August 29th, 2019: [Berlin Open Source Salon](#)
- October 22-24, 2019: [ApacheCon Europe](#)

🔗 Meetups

A list of all of the open source related meetups in Berlin

- 🔗 [Berlin Hack and Tell Meetup](#)
- 🔗 [Berlin Ethereum Meetup](#)
- 🔗 [Ocean Protocol Berlin](#)
- 🔗 [Decentralised Tech Berlin // hosted by Parity Technologies](#)
- 🔗 [Elasticsearch Berlin](#)

🔗 Companies & Organizations

What companies publicly build / use / sponsor open source software in Berlin? What open-source startups are there in Berlin?

🔗 Companies & Organizations

What companies publicly build / use / sponsor open source software in Berlin? What open-source startups are there in Berlin?

🔗 Jovo

<https://jovo.tech>

The Framework for Voice App Development: Build multimodal apps for Amazon Alexa and Google Assistant

Jovo Framework <https://github.com/jovotech/jovo-framework>

www.parity.io/

Infrastructure for the decentralized web.

Blockchain building kit <https://github.com/paritytech/substrate>

RPC Client <https://github.com/paritytech/parity-ethereum>

Implementation <https://github.com/paritytech/polkadot>

🔗 Rasa

Open source machine learning framework to automate text- and voice-based conversations

<https://github.com/RasaHQ/rasa>

NEXT STEPS

- Reflect, share your thoughts #BOSS19
- Open Source Salons in your home city
- Experiment, learn, build together
- Beyond code
