The 3 minutes context

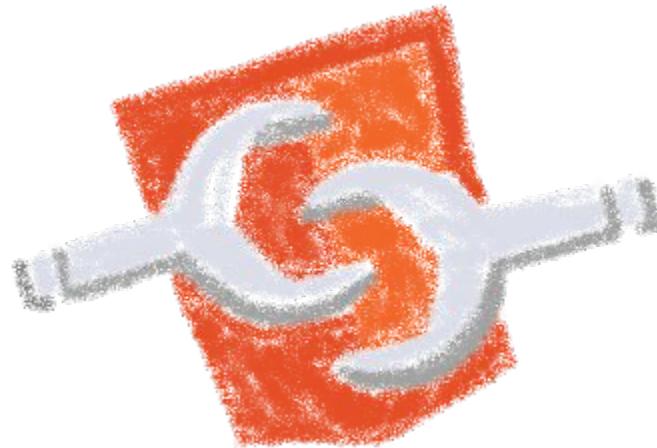

What the heck are web component?

Web Components

La Chandeleur
des Speakers

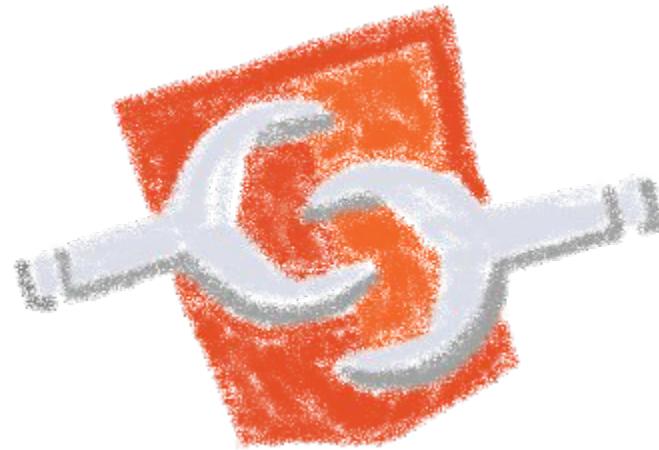

Web standard W3C

Web Components

La Chandeleur
des Speakers

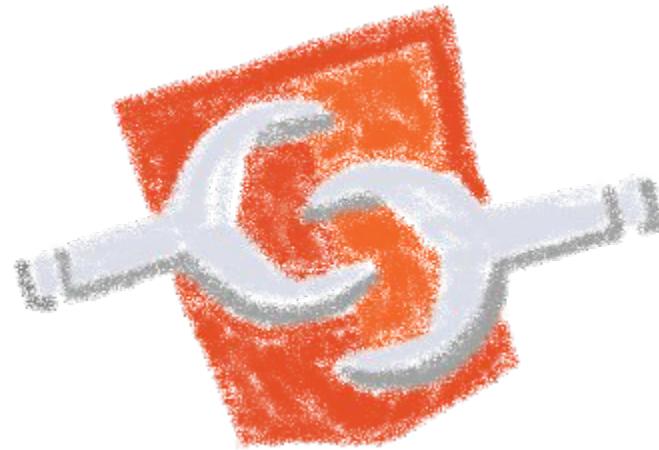

Available in all modern browsers:
Firefox, Safari, Chrome

Web Components

La Chandeleur
des Speakers

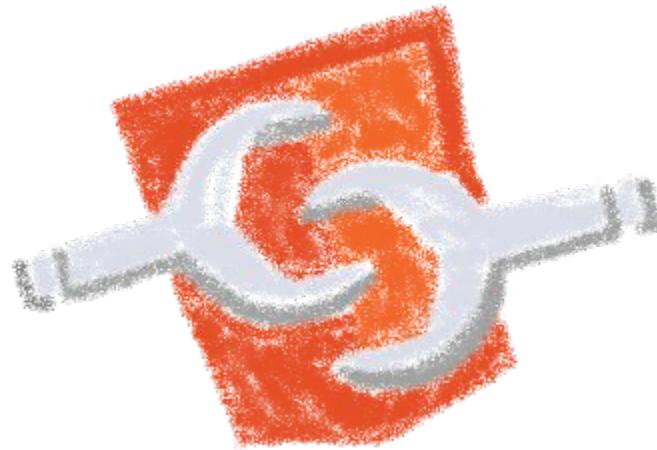

Create your own HTML tags
Encapsulating look and behavior

Web Components

La Chandeleur
des Speakers

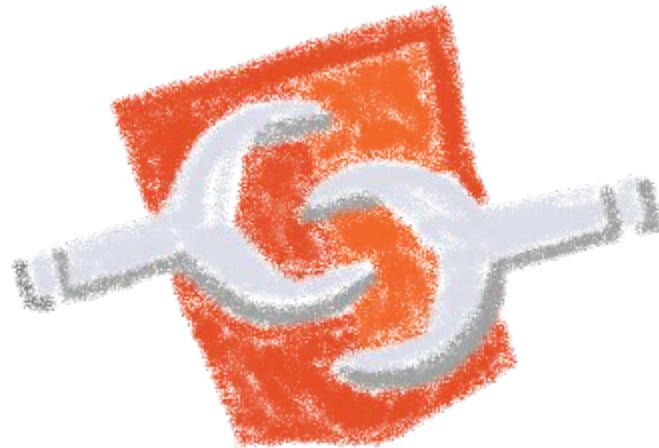

Fully interoperable
With other web components, with any framework

Web Components

La Chandeleur
des Speakers

CUSTOM ELEMENTS

SHADOW DOM

TEMPLATES

Custom Element

La Chandeleur
des Speakers

</>

To define your own HTML tag

```
<body>
    ...
    <script>
        window.customElements.define('my-element',
            class extends HTMLElement {...});
    </script>
    <my-element></my-element>
</body>
```

Shadow DOM

La Chandeleur
des Speakers

To encapsulate subtree and style in an element

Hello, world!

```
<button>Hello, world!</button>
<script>
var host = document.querySelector('button');
const shadowRoot = host.attachShadow({mode: 'open'});
shadowRoot.textContent = 'こんにちは、影の世界!';
</script>
```

こんにちは、影の世界!

Template

La Chandeleur
des Speakers

To have clonable document template

```
<template id="mytemplate">
  <img src="" alt="great image">
  <div class="comment"></div>
</template>
```

```
var t = document.querySelector('#mytemplate');
// Populate the src at runtime.
t.content.querySelector('img').src = 'logo.png';
var clone = document.importNode(t.content, true);
document.body.appendChild(clone);
```

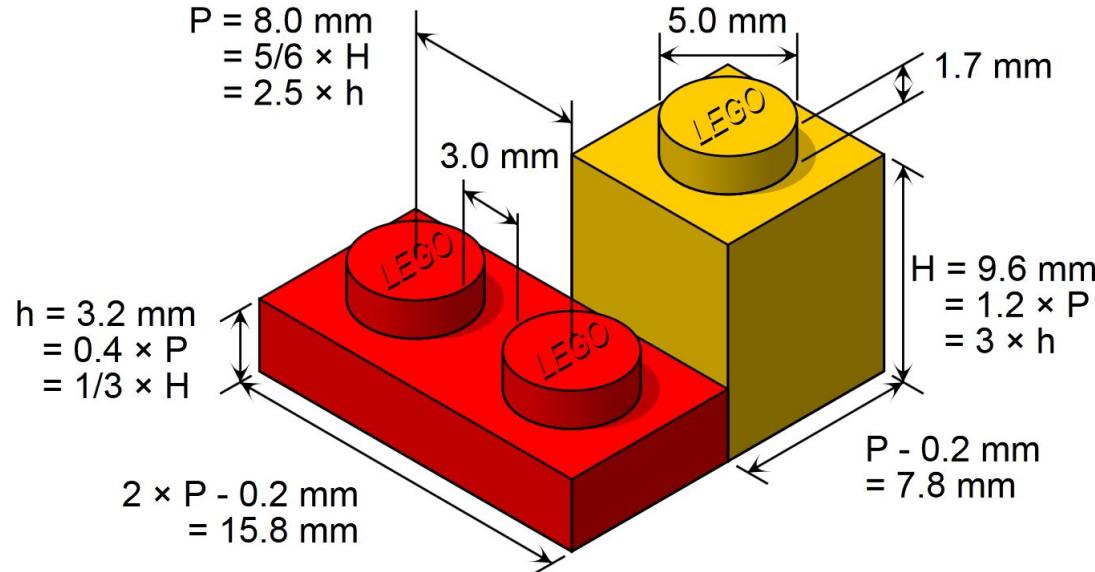

But in fact, it's just an element...

ionic 🎉 @Ionicframework · Jan 23
Ionic Framework 4.0 is here! 🎉

- ⚙️ Web Components = Stability + Compatibility
- ⚡ Better performance & startup times
- 👨‍💻 Made for developers & their preferred tooling
- 🟣 Powerful theming & CSS variables
- 🚩 Future-proof development, built in
- 💻 New 4.0 docs

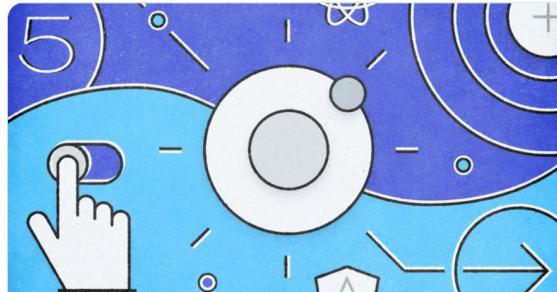

Introducing Ionic 4: Ionic for Everyone
Today I am thrilled to announce the 4.0 release of Ionic Framework, lovingly known as "Ionic for Everyone." 🎉 Ionic 4 represents the culmination of blog.ionicframework.com

ionic 🎉 @Ionicframework · Feb 11
IONIC 5 IS HERE! 🎉

The biggest design update ever in the history of Ionic:

- ✓ New iOS & Android component designs
- ✓ New React & Angular starters
- ✓ New Ionicons icon pack
- ✓ New Animations API

Check the Blog for the full story and get building! 👉

Announcing Ionic 5! - Ionic Blog
Today, I'm thrilled to announce Ionic Framework 5 (Magnesium)! 🎉 This release includes iOS 13 design updates, a brand new API for creating ...

Powering Ionic Framework

A build time tool

La Chandeleur
des Speakers

To generate standard web components

Fully featured

La Chandeleur
des Speakers

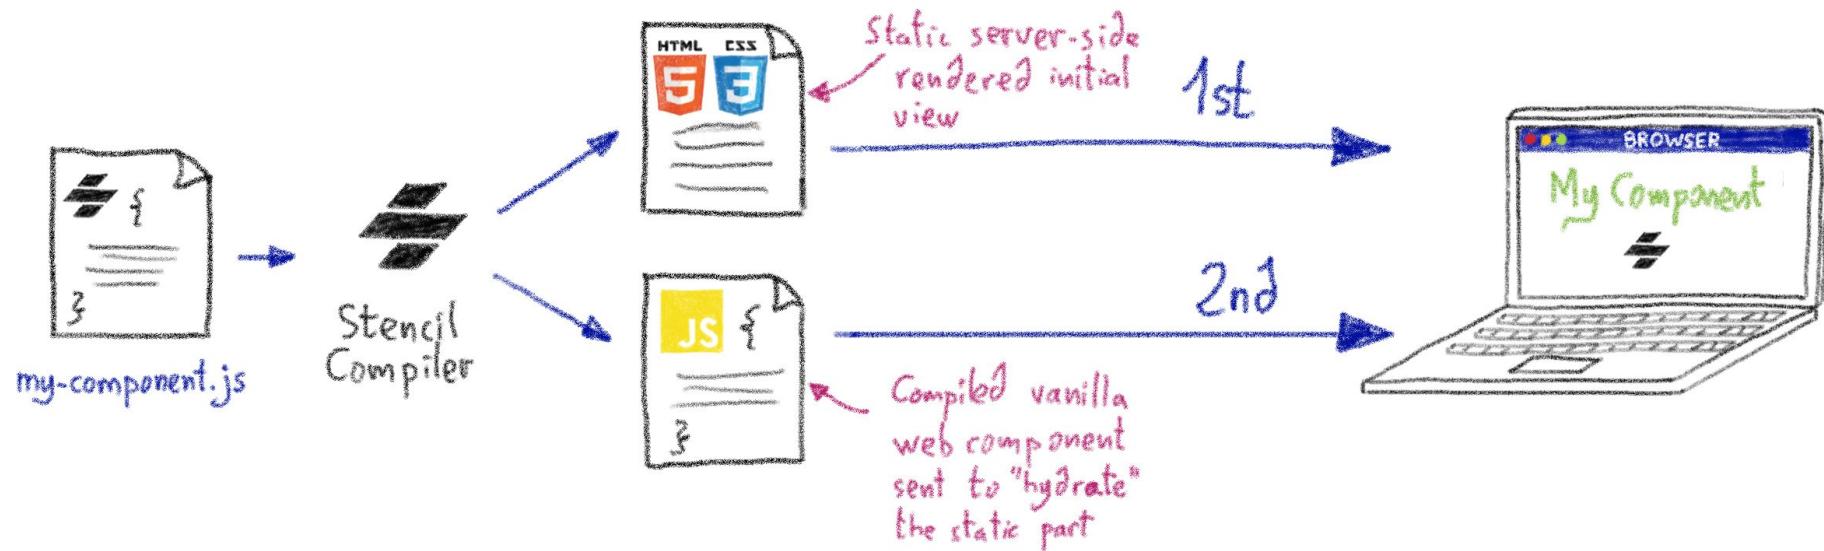

- Web Component-based
- Asynchronous rendering pipeline
- TypeScript support
- Reactive Data Binding
- Component pre-rendering
- Simple component lazy-loading
- JSX support
- Dependency-free components

And the cherry on the cake

La Chandeleur
des Speakers

Server-Side Rendering

Stencil leverages the web platform

La Chandeleur
des Speakers

Stencil doesn't fight the web platform. It embraces it.

Simple

With intentionally small tooling, a tiny API, and zero configuration, Stencil gets out of the way and lets you focus on your work.

Lightweight

A tiny runtime, pre-rendering, and the raw power of native Web Components make Stencil one of the fastest compilers around.

Future proof

Build cross-framework components and design systems on open web standards, and break free of Framework Churn.

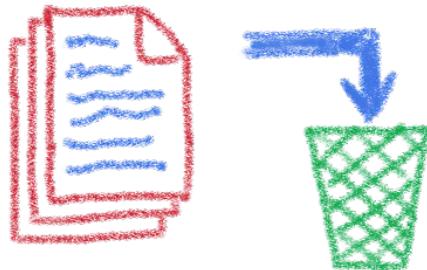

Working with the web, not against it

The Stencil story

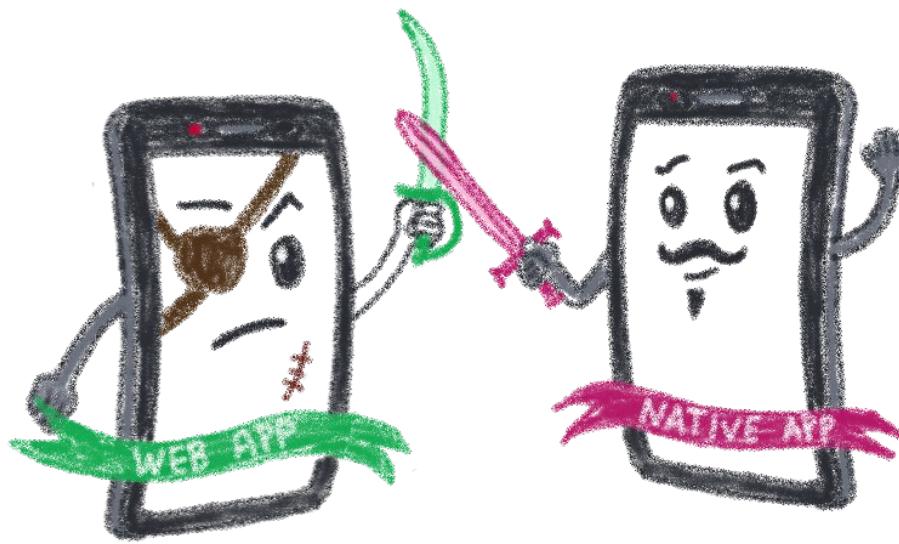

A company tired of putting good code in the bin

Once upon a time there was a fight

La Chandeleur
des Speakers

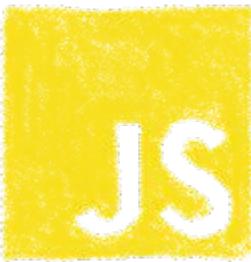

Between native apps and web app on mobile

A quest to the perfect solution

La Chandeleur
des Speakers

Hybrid apps, leveraging on web technologies

A company wanted to do it well

La Chandeleur
des Speakers

ionic

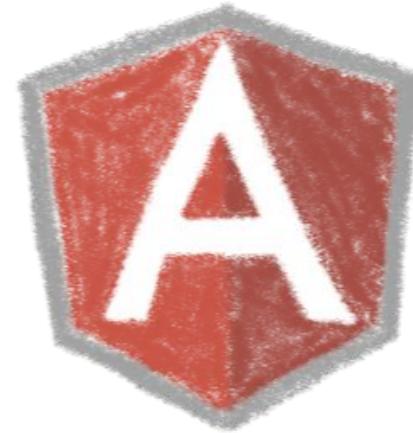

The perfect technology for mobile web and hybrid apps

The time is 2013

La Chandeleur
des Speakers

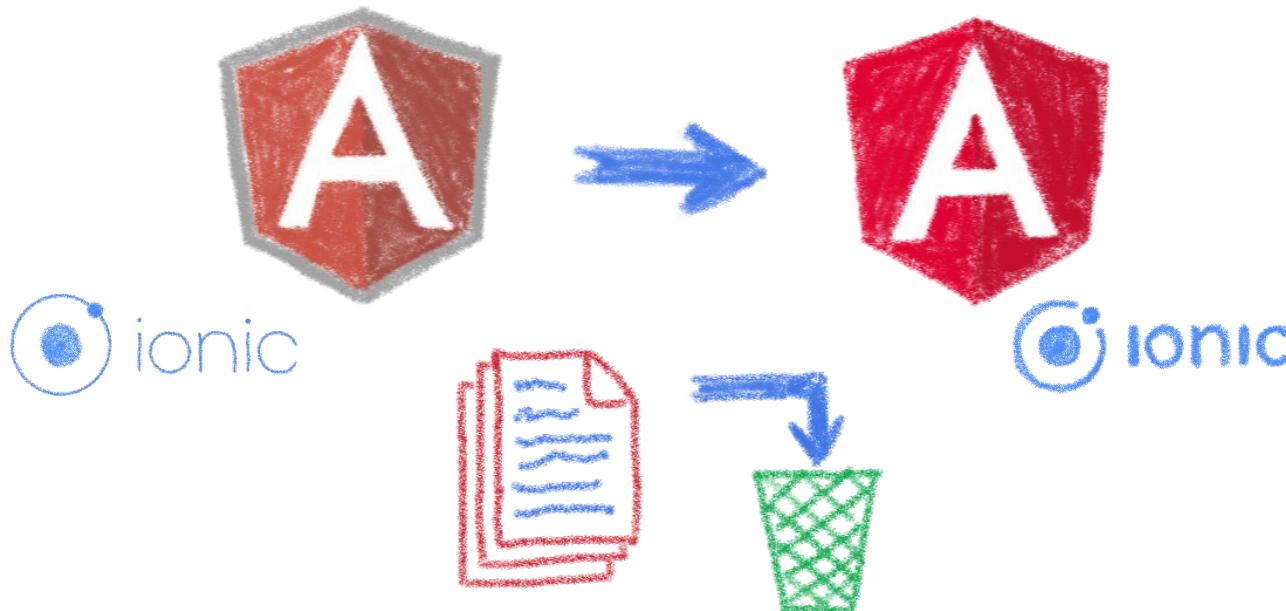

So what technology would you use?

Really soon after launch...

La Chandeleur
des Speakers

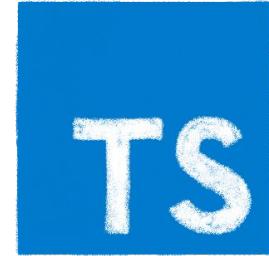

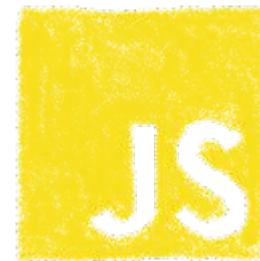

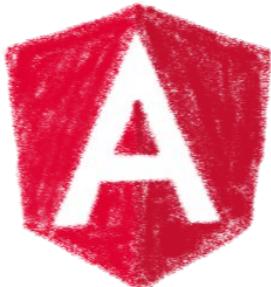

Hey folks, we are killing AngularJS!

What did Ionic people do?

La Chandeleur
des Speakers

HTML

CSS

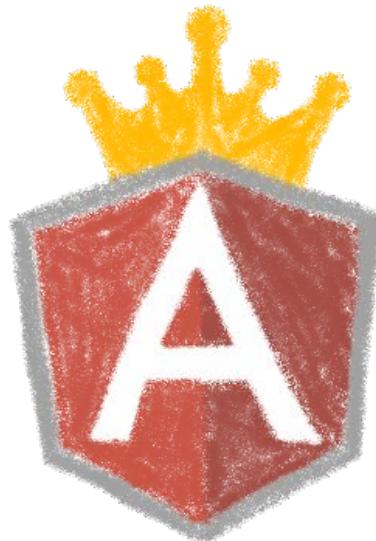

Let's put everything in the trash bin and begin anew

But times have changed...

La Chandeleur
des Speakers

Knockout.

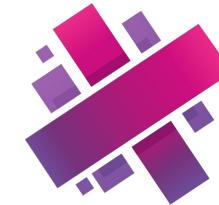

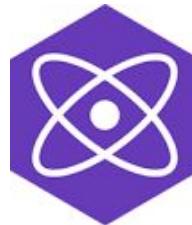

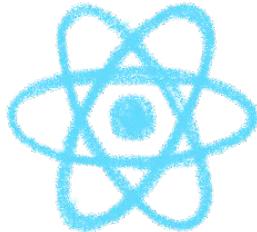

In 2013 Angular JS was the prom queen

Times have changed...

La Chandeleur
des Speakers

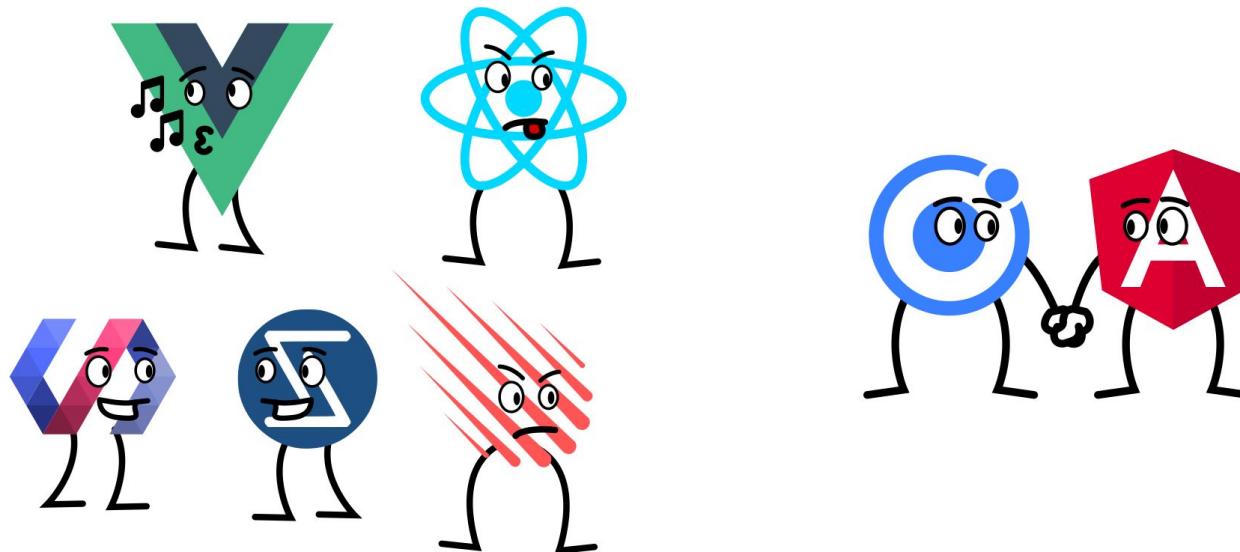

In 2017 Angular is only one more in the clique

Angular limits adoption of Ionic

La Chandeleur
des Speakers

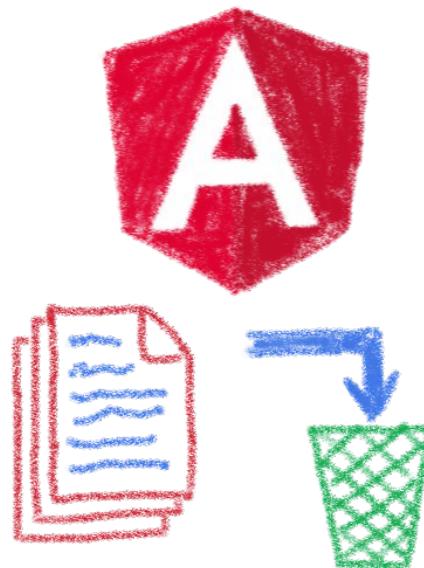

Devs and companies are
very vocal about JS Frameworks

What did Ionic people do?

La Chandeleur
des Speakers

Let's put everything in the trash bin and begin anew...

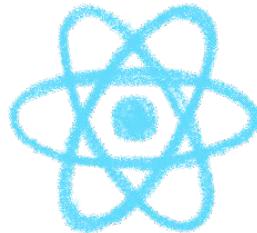

But on which framework?

What about web components?

La Chandeleur
des Speakers

A nice solution for Ionic problems:
Any framework, even no framework at all!

But what Web Component library?

La Chandeleur
des Speakers

hybrids

snuggsi ⌂

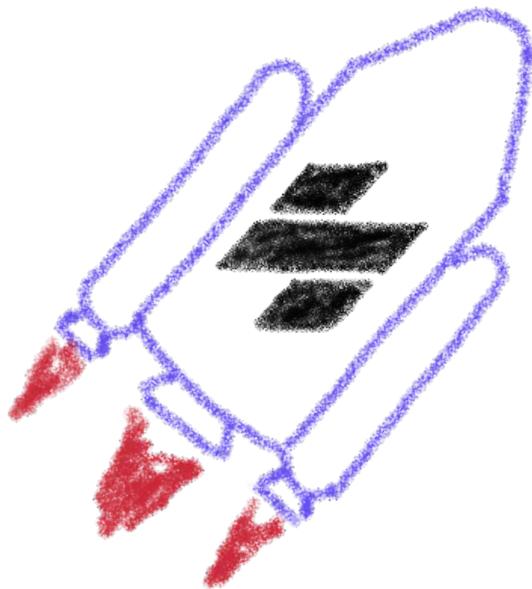

SkateJS

There were so many of them!

Let's do something different

La Chandeleur
des Speakers

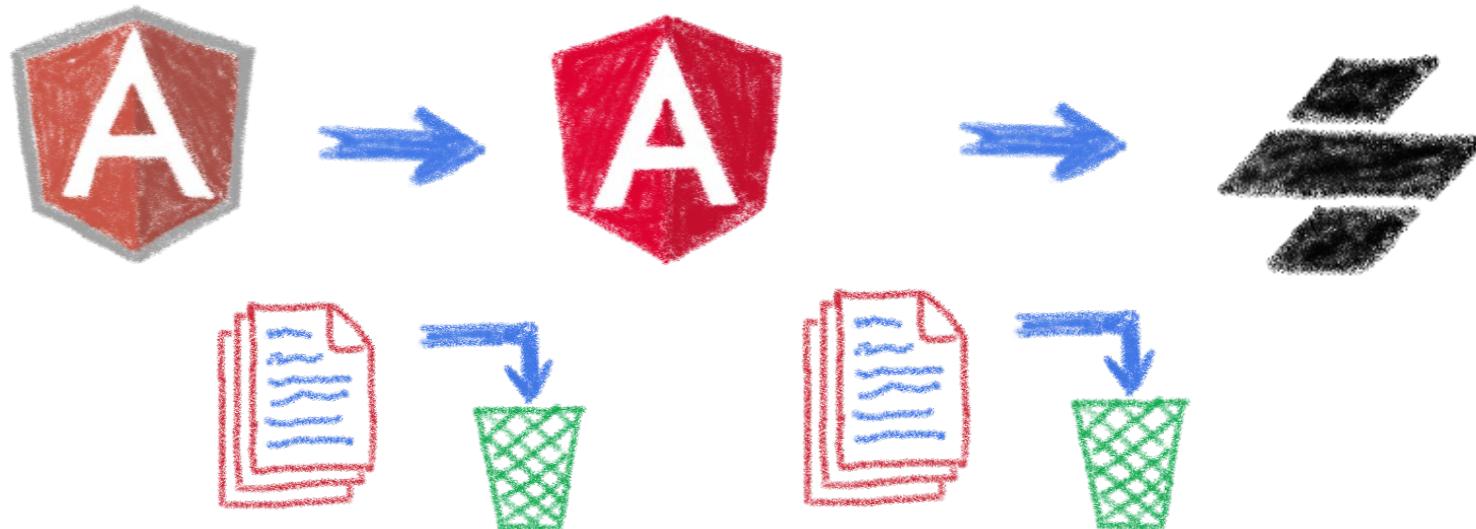

A fully featured web component toolchain
With all the bells and whistles!

Ionic rewrote all their code again

La Chandeleur
des Speakers

Ionic 4 is fully based on Ionic

Now Ionic works on any framework

La Chandeleur
des Speakers

Or without framework at all

And we have Stencil

La Chandeleur
des Speakers

The logo consists of a stylized, hand-drawn style letter 'S' on the left, followed by the word 'stencil' in a bold, lowercase, sans-serif font. The entire logo is composed of a dense, black, textured pattern of small dots or pixels.

To use it in any of our projects

Hey dude, enough stories!

We are here to see some code!

0101010101010101
0101010101010101
101010101010101

Hands on Stencil

La Chandeleur
des Speakers

Simply use npm init

```
npm init stencil
```

Choose the type of project to start

```
? Pick a starter > - Use arrow-keys. Return to submit.  
  
❯ ionic-pwa      Everything you need to build fast, production ready PWAs  
    app            Minimal starter for building a Stencil app or website  
    component     Collection of web components that can be used anywhere  
  
Updating Stencil
```

Hands on Stencil

La Chandeleur
des Speakers

And the project is initialized in some seconds!

```
✓ Pick a starter > component
✓ Project name > codemotion-online
✓ All setup in 17 ms

$ npm start
  Starts the development server.
$ npm run build
  Builds your components/app in production mode.
$ npm test
  Starts the test runner.

We suggest that you begin by typing:
$ cd codemotion-online
$ npm install
$ npm start
```

Happy coding! 🎈

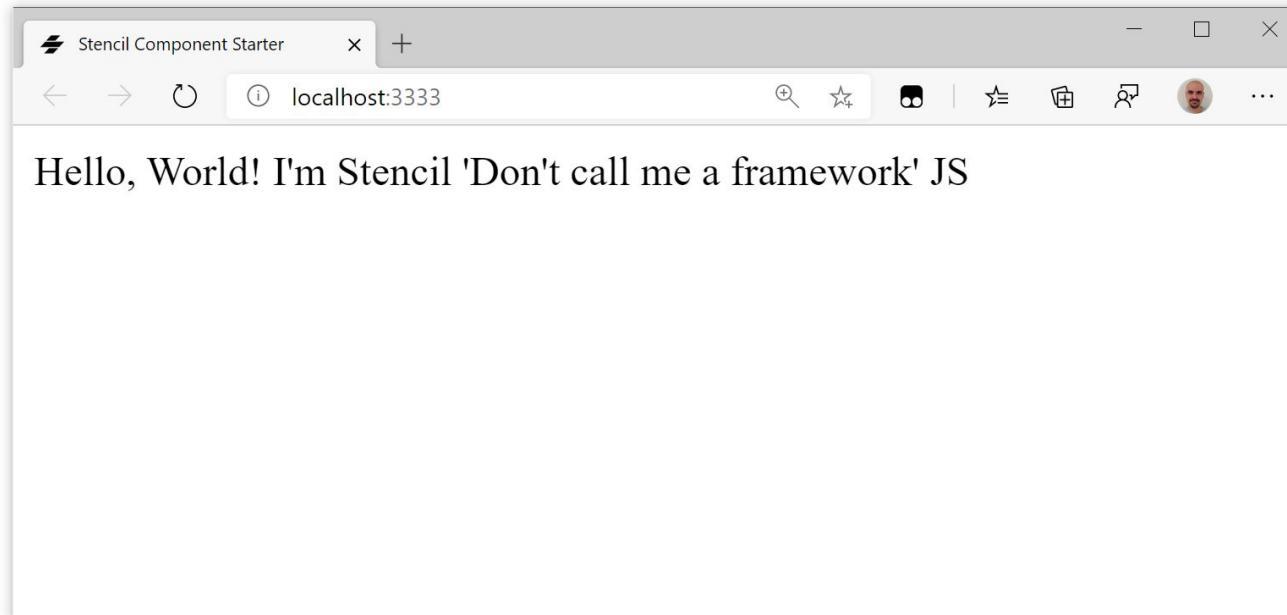

Starting the development server

La Chandeleur
des Speakers

```
npm start
```

Let's look at the code

La Chandeleur
des Speakers

The screenshot shows the Visual Studio Code interface with the following details:

- File Menu:** File, Edit, Selection, View, Go, Debug, Terminal, Help.
- Title Bar:** my-component.tsx - Untitled (Workspace) - Visual Studio Code.
- Left Sidebar (Explorer):**
 - OPEN EDITORS: my-component.tsx
 - UNTITLED (WORKSPACE):
 - sthlm.js
 - .stencil
 - dist
 - node_modules
 - src
 - components / my-component
 - my-component.css
 - my-component.e2e.ts
 - my-component.tsx (selected)
 - readme.md
 - utils
 - components.d.ts
 - index.html
 - index.ts
 - www
 - .editorconfig
 - .gitignore
 - LICENSE
 - package-lock.json
 - package.json
 - readme.md
 - stencil.config.ts
 - tsconfig.json
 - OUTLINE
 - NPM SCRIPTS
- Code Editor:** The file my-component.tsx is open, showing the following TypeScript code:

```
1 import { Component, Prop, h } from '@stencil/core';
2 import { format } from '../../../../../utils/utils';
3
4 @Component({
5   tag: 'my-component',
6   styleUrl: 'my-component.css',
7   shadow: true
8 })
9 export class MyComponent {
10   /**
11    * The first name
12    */
13   @Prop() first: string;
14
15   /**
16    * The middle name
17    */
18   @Prop() middle: string;
19
20   /**
21    * The last name
22    */
23   @Prop() last: string;
24
25   private getText(): string {
26     return format(this.first, this.middle, this.last);
27   }
28
29   render() {
30     return <div>Hello, World! I'm {this.getText()}</div>;
31   }
32 }
33 }
```
- Bottom Status Bar:** WSL: Ubuntu, Ln 1, Col 1, Spaces: 2, UTF-8, LF, TypeScript React 3.7.3, and icons for terminal, file, and help.

Some concepts

La Chandeleur
des Speakers

```
import { Component, Prop, h } from '@stencil/core';
import { format } from '../../utils/utils';

@Component({
  tag: 'my-component',
  styleUrl: 'my-component.css',
  shadow: true
})
export class MyComponent {

  @Prop() first: string;
```

Decorators

Some concepts

La Chandeleur
des Speakers

```
@Prop() first: string;  
  
@Prop() middle: string;  
  
@Prop() last: string;  
  
@State() nickname: string;
```

Properties and States

Some concepts

La Chandeleur
des Speakers

```
render() {  
  return <div>Hello, World! I'm {this.getText()}</div>;  
}
```

Asynchronous rendering using JSX

Some concepts

La Chandeleur
des Speakers

```
@Prop() value: number;  
  
@Watch(value)  
valueChanged(newValue: boolean, oldValue: boolean) {  
  console.log(`The new value is ${newValue}, it was ${oldValue} before`);  
}
```

Watch

Some concepts

La Chandeleur
des Speakers

```
@Event() actionCompleted: EventEmitter;  
  
someAction(message: String) {  
  this.actionCompleted.emit(message);  
}
```

Emitting events

```
@Listen('actionCompleted')  
actionCompletedHandler(event: CustomEvent) {  
  console.log('Received the custom actionCompleted event: ', event.detail);  
}
```

Listening to events

Some concepts

La Chandeleur
des Speakers

```
@Method()  
async sayHello() {  
    this.hello = true;  
}  
  
render() {  
    return (  
        <Host>  
            <h2>{ this.hello ? `Hello sthlm.js` : '' }</h2>  
        </Host>  
    );  
}
```

Asynchronous public methods

Some concepts

La Chandeleur
des Speakers

```
@Component({  
  tag: 'my-component',  
  styleUrls: ['my-component.css'],  
  shadow: true  
})  
export class MyComponent {
```

Optional Shadow DOM

Stencil for design systems

Because web components really shine for that

What the heck is a design system?

La Chandeleur
des Speakers

Components

Patterns

Visual language

No more time spent
rewriting once again
the same base UI elements

Design artifacts
&
Code implementation

Why Stencil is so good for design systems?

La Chandeleur
des Speakers

Web Components work everywhere!

One more thing...*

Let's copy from the master

Stencil is not so important

La Chandeleur
des Speakers

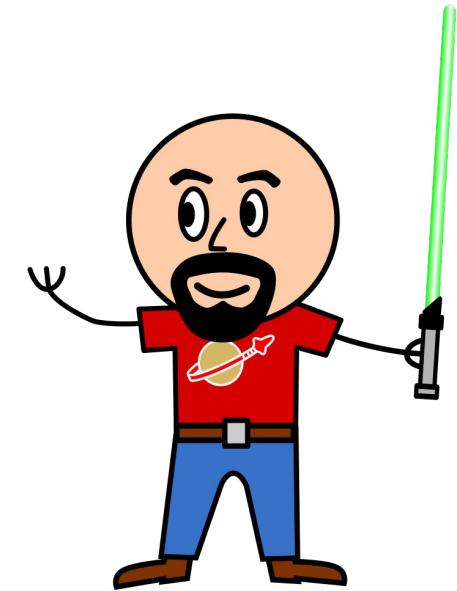

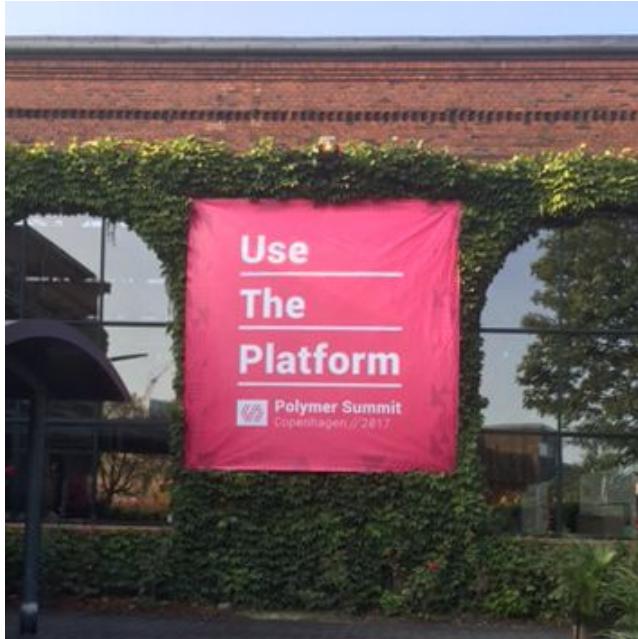

WebComponents ARE

Use the Platform, Luke...

La Chandeleur
des Speakers

WebComponents ARE native

Do you love your framework?

La Chandeleur
des Speakers

Oh yeah, we all do

Would you marry your framework?

La Chandeleur
des Speakers

Like until death...

How much does cost the divorce?

La Chandeleur
des Speakers

Do you remember when you dropped AngularJS for Angular?

Why recode everything again?

La Chandeleur
des Speakers

Reuse the bricks in your new framework

Lots of web components libraries

La Chandeleur
des Speakers

slim.js

hybrids

SkateJS

LitElement

snuggsi ツ

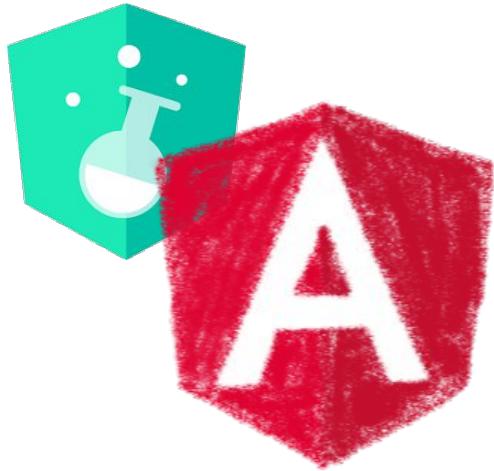

For different need and sensibilities

And some good news

La Chandeleur
des Speakers

Angular Elements

Vue Web Component
Wrapper

Frameworks begin to understand it

So for your next app

La Chandeleur
des Speakers

Choose a framework, no problem...

But please, help your future self

Use Web Components!

Conclusion

That's all, folks!
