ALEX@STRONGFABRIC.CO

**INSTALL JENKINS ON A DESKTOP COMPUTER
(UNDER THEIR DESK)**

IMPLEMENT DEVOPS IN THEIR DEVOPS DEPARTMENT

**ALEX STILL HAS
A PROBLEM**

DevOps is a set of practices that combines **software development** (*Dev*) and **information-technology operations** (*Ops*) which aims to shorten the **systems development life cycle** and provide **continuous delivery** with high **software quality**.^{[1][2]}

ACCELERATE

State of DevOps

2019

Aspect of Software Delivery Performance*	Elite	High	Medium	Low
Deployment frequency For the primary application or service you work on, how often does your organization deploy code to production or release it to end users?	On-demand (multiple deploys per day)	Between once per day and once per week	Between once per week and once per month	Between once per month and once every six months
Lead time for changes For the primary application or service you work on, what is your lead time for changes (i.e., how long does it take to go from code committed to code successfully running in production)?	Less than one day	Between one day and one week	Between one week and one month	Between one month and six months
Time to restore service For the primary application or service you work on, how long does it generally take to restore service when a service incident or a defect that impacts users occurs (e.g., unplanned outage or service impairment)?	Less than one hour	Less than one day ^a	Less than one day ^a	Between one week and one month
Change failure rate For the primary application or service you work on, what percentage of changes to production or released to users result in degraded service (e.g., lead to service impairment or service outage) and subsequently require remediation (e.g., require a hotfix, rollback, fix forward, patch)?	0-15% ^{b,c}	0-15% ^{b,d}	0-15% ^{c,d}	46-60%

DevOpsSpeakeasy Podcast S01E08: Sam Boyer on the sea of despair of ... >

In this episode, we embarked on a fascinating journey of despair and hope with Sam Boyer (@sdboyer), the author of the Go Dep experiment, and discussed all things dependency management - why it doesn't work, and what can be done to make it a little more transparent and easier to work with.

"Provocative and fascinating." —MALCOLM GLADWELL

Daniel H. Pink

author of *A Whole New Mind*

DRiVE

The title 'DRiVE' is rendered in a large, bold, red sans-serif font. The letter 'i' is lowercase and features a small red dot. A white silhouette of a person is shown falling from the dot of the 'i' towards the bottom of the page. The letters 'D', 'R', 'V', and 'E' are all uppercase. Below the main title, there is a faint, light gray shadow of the word 'DRiVE'.

Equifax CEO falls on his sword weeks after credit biz admits mega-breach

Well, what else could he do?

By [John Leyden](#) 26 Sep 2017 at 15:35

43  SHARE ▼

Equifax's chairman and chief exec today resigned, weeks after the consumer credit reporting agency admitted a massive security breach.

Richard Smith, who "retires" with immediate effect, has joined a growing list of senior people that exited Equifax in the wake of the mega leak that affected in excess of 100 million consumers.

Smith will not collect his annual bonus, according to his [agreement](#) with Equifax. He will be on hand for the next 90
