Replying to [@g16n](#) and [@SBahnBerlin](#)

wohl auf dem PC mit Word oder so einem Gurkenprogramm gemacht;
außerdem gibt es DB Sans auch mit Arial Dickten

Ugh Slack and its tiny low contrast emoji reaction icons.

I tried to do the upward-pointing finger on a comment from Scott, but chose the middle finger, then removed it and added the thing, and now Slack is telling me I am a “dick to remove”. Which is fair.

Fuck yeah, [#keming](#).
