

Styling Tips: How to Mix and Match Trendy Clothes and Shoes

When it comes to men's styling, there are limited options to choose from. However, it would be best if you did something different every time with your clothes when you go out. The first question that comes to mind before starting to dress up is how to mix and match trendy clothes to look fashionable and not extra.

With our tips, you can be trendy and stylish while putting in minimal effort. With the intervention of the digital world, you can buy fashionable clothes from [trendy online shopping sites in India](#). So let's dig deep into these fashion secrets that no one really ever told you-

5 Styling Tips to Mix and Match Trendy Clothes and Shoes

1. Know the Colors and Prints that Suits You

Before considering a new fashion choice, you should always know your color and print first. Being trendy is only sometimes about going with the latest color or print but also what suits your personality and taste. You should know which colors and combinations work for you, like for a sunny day out. A light blue shirt with white shorts and white shoes can give you one nice trendy look. You can mix and match the colors with prints, like buying a line print light blue shirt or multi-pocket shorts.

2. Fashionable Separates

You can stick to a different old combo. Mix it up with different colors and prints. Keep it chill and funky. Like, rock your favorite chinos with a shirt in the same color or something totally random, and throw on some white shoes for a laid-back, playful vibe. The point is to have a blast while still looking sharp.

3. Trust in Black

If you want to keep it chill and accessible, go for an all-black outfit. It's a classic color that you probably already have in your closet. You can rock black chino shorts with a polo neck or black trousers with a black shirt. If you're feeling fancy, wear a black kurta with black pants. But if you live in a hot and humid place, choose breathable fabrics like linen or cotton and stay away from synthetic materials.

4. Neutrals and textures

You can pair neutral color shades with textured opposites, like buying a plain white shirt and pairing it with lined or checked brown trousers with brown shoes. Combinations like this will keep your look minimalist, and at the same time, you will be trendy with your little mix-and-match trick.

5. Match the Material

It is always a great option to pair the same material tops and bottoms, except in the case of jeans. Jeans are universal. However, for example, for a cotton shirt or t-shirt, go for cotton shorts, chinos, or pants to look sharp. Or, for a linen shirt, pair it with some denim jackets and jeans. Wear a pair of black, white, brown, or blue-colored sneakers or formal and complete your trendy looks for the day or night.
