"As we look ahead into the next century, leaders will be those who empower others."

- Bill Gates

	1	Diale contract and contract
_	Low external self-awareness	High external self-awareness
High internal self-awareness	INTROSPECTORS They're clear on who they are but don't challenge their own views or search for blind spots by getting feedback from others. This can harm their relationships and limit their success.	AWARE They know who they are, what they want to accomplish, and seek out and value others' opinions. This is where leaders begin to fully realize the true benefits of self-awareness.
Low internal self-awareness	SEEKERS They don't yet know who they are, what they stand for, or how their teams see them. As a result, they might feel stuck or frustrated with their performance and relationships.	PLEASERS They can be so focused on appearing a certain way to others that they could be overlooking what matters to them. Over time, they tend to make choices that aren't in service of their own success and fulfillment.
