No more bullshit. Join the revolution.

We're done with the tired old fontstacks of yesteryear. Enough with the limitations of the web, we won't have it. It's time to raise our standards. Here, you'll find only the most well-made, free & open-source, @font-face ready fonts.

Like any revolution, we aim to make progress, and we need help. If you want to be a part of this free, open-source type movement, you should join us and contribute. If you have any questions about The League or the movement, get in touch.
