# **Lessons from community resilience**

**Community resilience is a measure of the sustained ability of a community to utilize available resources to respond to, withstand, and recover from adverse situations.**

***“Resilience is a process,  
not a trait”***

**MICHAEL RUTTER M.D., 1990**

# **Risk factors**

**Two groups of people can encounter the same risk factors, and respond differently.**

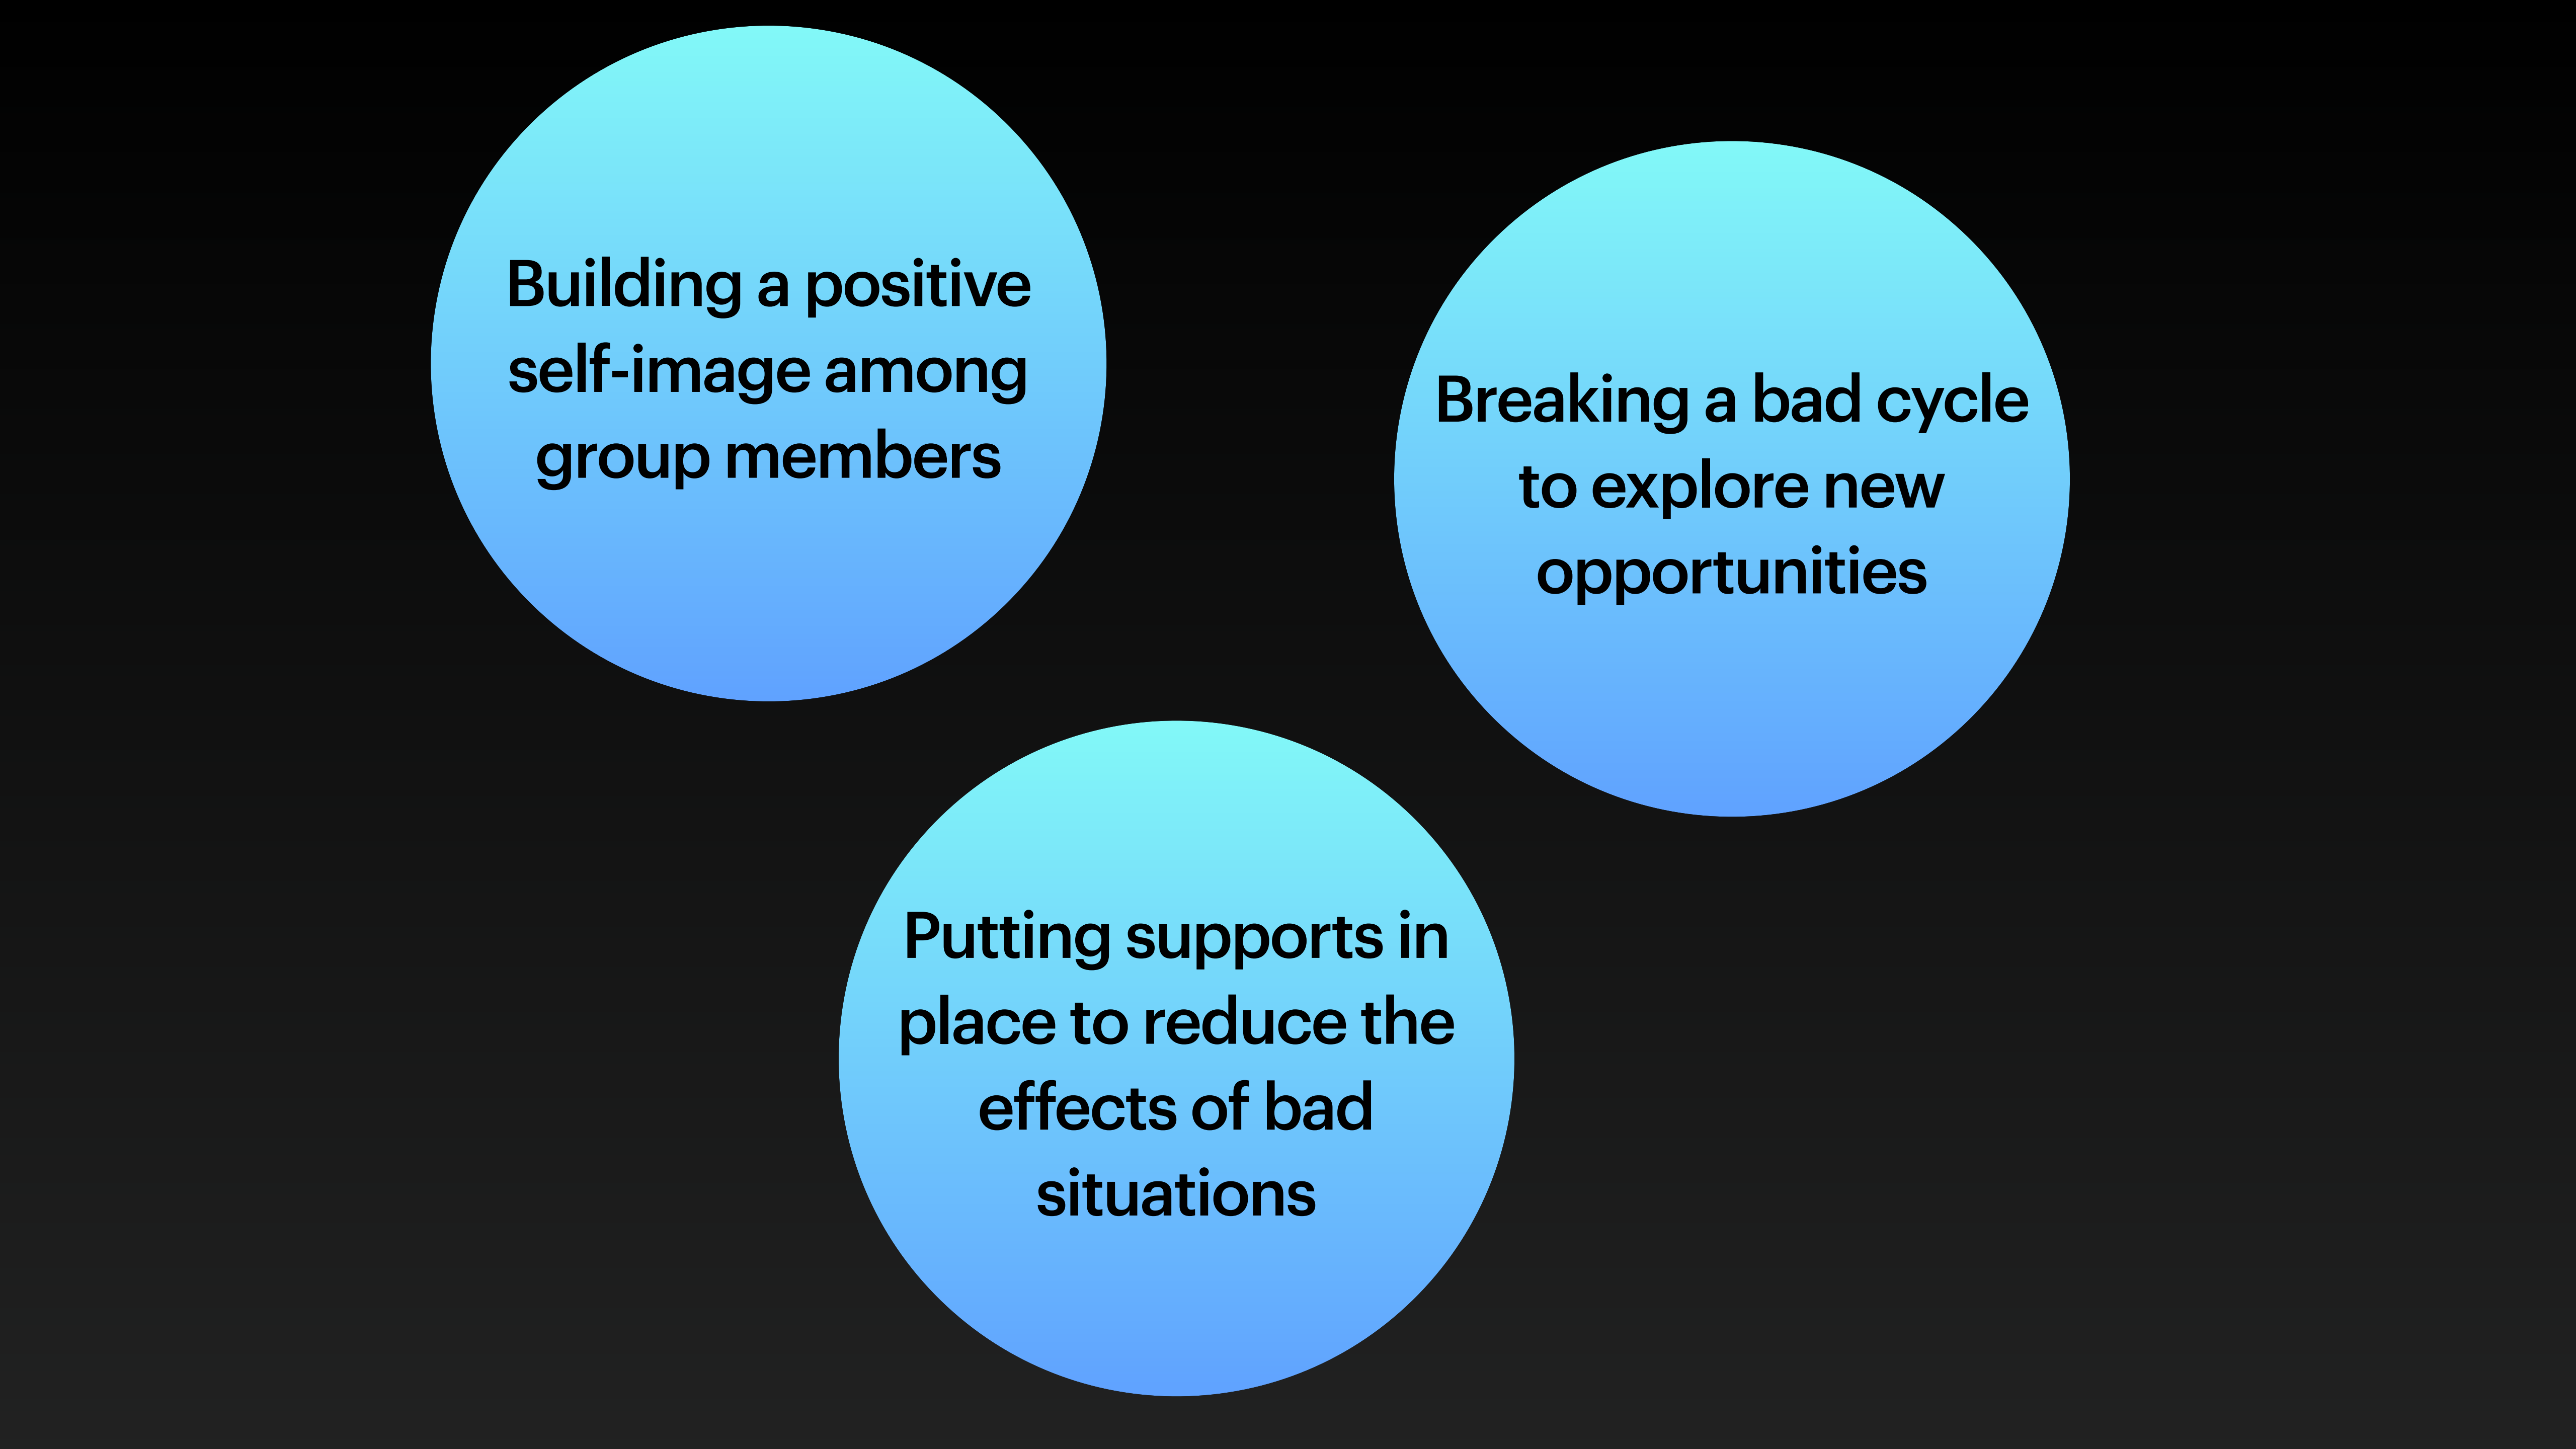

**The same person can encounter the same risk factors in two different contexts and respond differently.**

**Why?**

**Building a positive  
self-image among  
group members**

**Breaking a bad cycle  
to explore new  
opportunities**

**Putting supports in  
place to reduce the  
effects of bad  
situations**

**Think about a time when something just  
didn't go the way you expected it to.**

**Where did you end up?**

ALL WAY

**Capitalism**

***“We have become a civilization based on work—not even “productive work” but work as an end and meaning in itself.”***

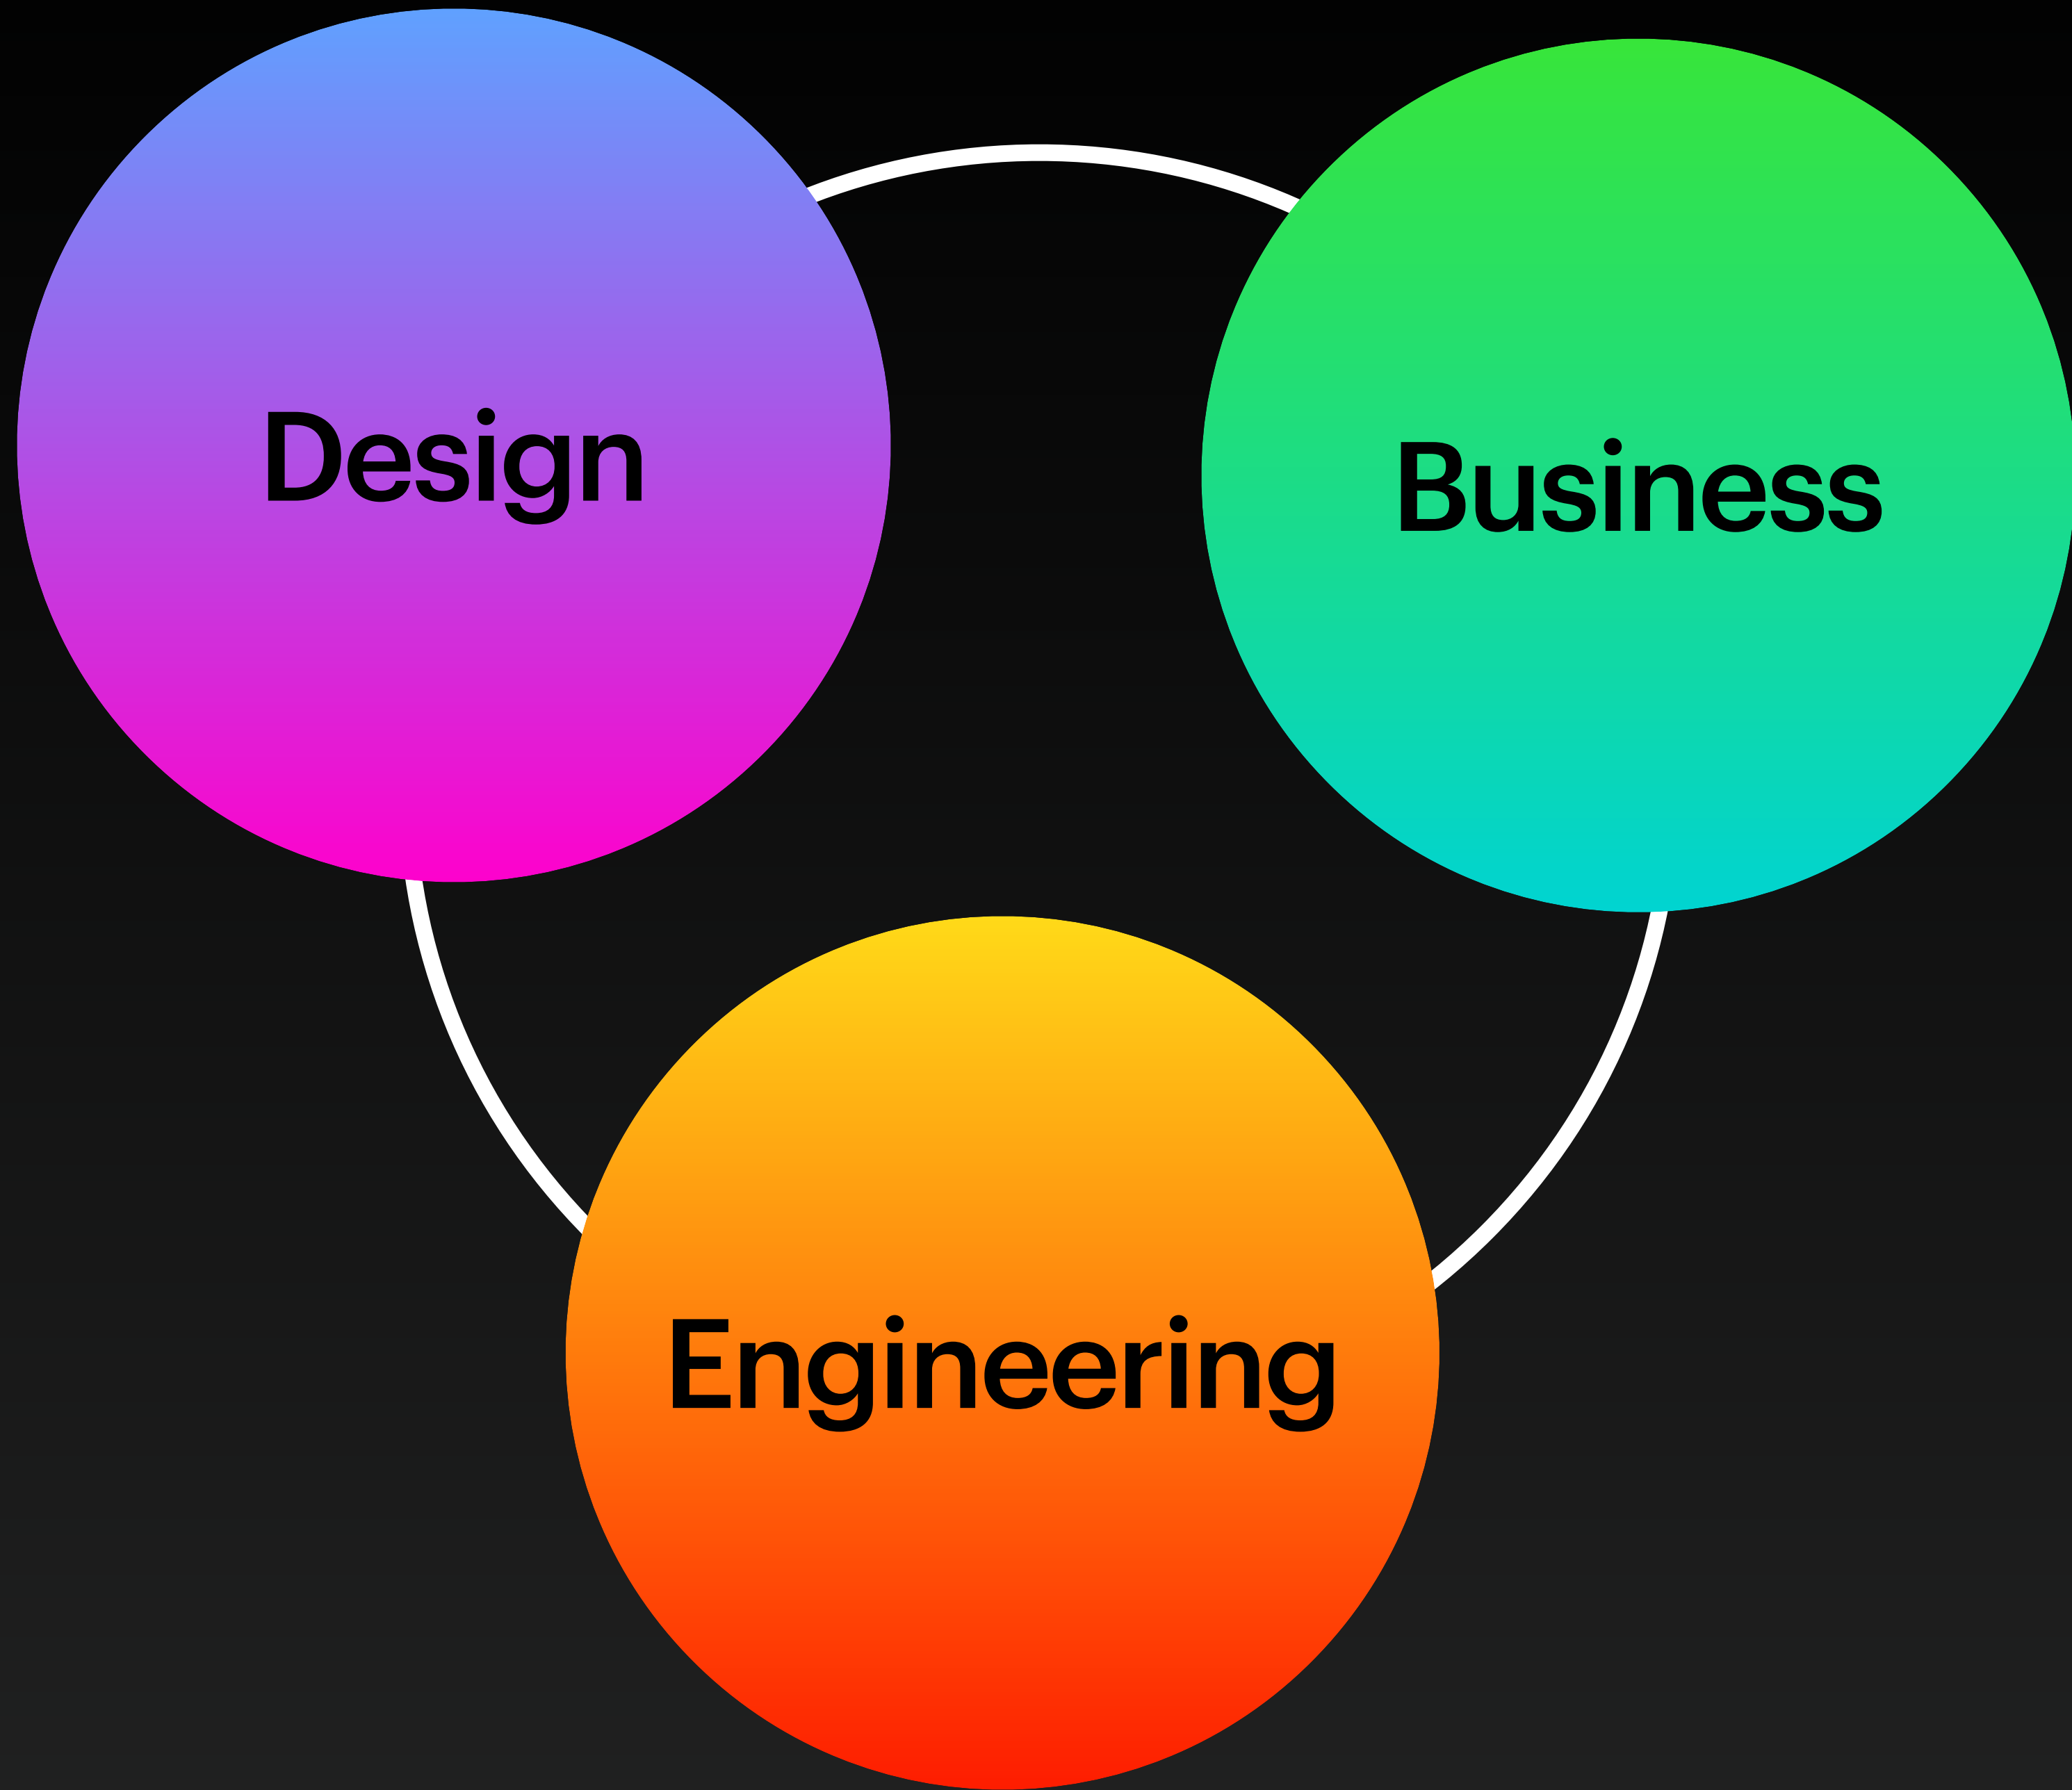

DAVID GRAEBER, BULLSHIT JOBS: A THEORY

**Optimism**

***“You must never confuse faith that you will prevail in the end—which you can never afford to lose—with the discipline to confront the most brutal facts of your current reality, whatever they might be.”***

JIM COLLINS (QUOTING ADMIRAL JIM STOCKDALE), GOOD TO GREAT

**Optimism**

**Honesty**

**It's okay if you aren't feeling very  
resilient right now.**

# **TL;DR**

**Resilience has more to do with the team than the individual.**

**In order to build more resilient teams, we need to have:**

- **Recognition and meaningful work**
- **Capacity and realistic deadlines**
- **Psychological safety**
- **Honesty**
- **Willingness to change**
