In a **report published Tuesday**, researchers at security firm RedLock said hackers accessed one of Tesla's Amazon cloud accounts and used it to run currency-mining software. The researchers said the breach in many ways resembled compromises suffered by Gemalto, the world's biggest SIM card maker, and multinational insurance company Aviva. Work, Work, Work

On about this date in 1801, Britain's first census was begun. In a subsequent survey conducted in 1881, residents were asked to furnish their "rank, profession, or occupation." Some of the more puzzling responses, as preserved by the London Genealogical Society, included:

- Colourist of artificial fish
- Knight of the Thimble
- Disinfector of railways
- Examiner of underclothing
- Invisible net maker
- Electric bath attendant
- Proprietor of midgets
- Fifty-two years an imbecile
- Knocker-up of workpeople
- Maker of sand views
- Gymnast to house painter
- Turnip shepherd
- Emasculator
- Sampler of drugs
- Fatuous pauper
- Drowner
- Count as female
- Fish-bender
- Goldfish-catcher
- Cow-banger
- Running about
- Grape-dryer
- Beef twister
- Random waller
